

**DEPARTMENT OF MIDDLE GRADES  
AND SECONDARY EDUCATION**

Dr. Adele Ducharme, Head  
Room 87, Education Building

The Department of Middle Grades and Secondary Education is a multidisciplinary department with undergraduate programs that offer the B. S. Ed. degree with a majors in middle grades education and in secondary education.

The department offers programs with teaching field for grades 4-8, middle grades, in two concentrations selected from language arts, mathematics, science or social studies. Secondary education programs are offered, with teaching fields for grades 7-12 in English, mathematics, biology, chemistry, physics, earth science, history, or political science. The programs provide experiences that allow preservice teachers to develop the content knowledge and pedagogical skills necessary for meeting the diverse needs of their future students. Emphasis is placed on student-centered and reflective approaches to communicating effectively, using the tools of inquiry, developing learning opportunities for all students, integrating technology into instruction and fostering relationships within the larger community.

**BACHELOR OF SCIENCE IN EDUCATION DEGREE WITH A  
MAJOR IN MIDDLE GRADES EDUCATION**

Each program in the department has numerous desired outcomes. Examples of these outcomes include the following:

**Selected Educational Outcomes**

1. Students who graduate from teacher preparation programs will demonstrate an acceptable level of content knowledge in multiple disciplines.
2. Students in teacher preparation programs will demonstrate an acceptable level of teaching competency in their major areas by planning, delivering, and assessing appropriate instruction in a public school setting for an extended period of time during the student teaching experience.
3. The students plan and create culturally responsive instructional opportunities with sensitivity to individual learners.
4. The students establish the integration of technology into instruction, assessment, and communication.

The departmental faculty members assess the desired learner outcomes by using a variety of techniques. Examples of summative assessments in addition to course evaluations include the following:

## Examples of Outcome Assessments

1. Students are required to pass the Middle Grades Praxis II Exam before they will be recommended for certification. The College of Education will examine the results of the Praxis Exams, by program, to determine the pass/fail rates of its graduates based on state passing scores.
2. The student teachers are assessed on professional teaching knowledge and skills related to the ten College of Education Conceptual Framework Principles through direct observation recorded on a standard rating scale by the college supervisor and the public school mentor. Written assignments required by the individual program are also assessed.
3. Students in their professional program must submit collection portfolios and teaching portfolios at the end of each senior semester documenting the design and implementation of culturally responsive instructional opportunities for all learners. A rubric will be used to assess the portfolios.
4. Students portfolios are assessed for integration of technology into instruction using a departmental rubric.

## **DEPARTMENT OF PSYCHOLOGY AND COUNSELING**

Dr. Robert E. L. Bauer, Head  
Psychology and Counseling Office Building

The Department of Psychology and Counseling provides programs of study at both the undergraduate and graduate levels. At the undergraduate level the Department offers B.A. and B.S. degrees with a major in psychology. Psychology is not only an exciting and popular undergraduate major or minor at Valdosta State University and around the country, but it is also one of the most useful. Undergraduate psychology training assists in preparing students for a number of career alternatives in government, business, industry, etc., that do not require more advanced training. It also assists in preparing students for professional or graduate school in psychology, law, physical or occupational therapy, social work, business, education, and other areas. At the graduate level, the Department offers the M.S. degree in psychology in clinical/counseling and industrial/organizational. Graduates are prepared to perform services in mental health settings, businesses, community colleges, government or industries, which require graduate training in psychology at the subdoctoral level.

The Department also offers programs leading to the M.Ed. and Ed.S. degrees in School Counseling and the Ed.S. in School Psychology. Information concerning these programs, their admission requirements, continuing education, and other services offered by the Department can be obtained by contacting the department.

### **Department Mission Statement**

The Department of Psychology and Counseling serves the citizens of the region and state by offering instruction, research, and services designed to advance the understanding of behavioral and cognitive processes and to improve the quality of life. The principle function of the department is to prepare students at the undergraduate and graduate levels to pursue careers within the discipline and affiliated areas. A related purpose is to provide courses for programs in education, nursing, and other disciplines. At the baccalaureate level, students develop basic skills in scientific research, knowledge of psychological nomenclature and concepts, and are introduced to the diverse applications of psychology. The graduate programs prepare students to apply skills in schools, mental health agencies, government, industry, and other settings. Training at the graduate level is designed to prepare qualified, responsible professionals who may provide assessment, consulting, counseling, and other services to the citizenry of the region.

## **BACHELOR OF ARTS DEGREE WITH A MAJOR IN PSYCHOLOGY and**

## **BACHELOR OF SCIENCE DEGREE WITH A MAJOR IN PSYCHOLOGY**

These programs introduce students to the liberal arts and to psychology as a scientific discipline, with content and methods able to improve the human condition. To declare psychology a major you must have completed 45 hours of coursework in the Core and earned at least a “C” or better ( $\geq 2.0$  GPA) in all your previously attempted coursework. You must also earn a “C” or better ( $\geq 2.0$  GPA) in each and every required psychology course and prerequisite. Each program in the department has numerous desired outcomes. Examples of these outcomes for the Bachelor of Arts and the Bachelor of Science Degrees include:

### **Selected Educational Outcomes**

1. Students will use the scientific method as a primary basis for engaging in critical thinking and evaluating multiple sources of information.
2. Students will design, run, and analyze descriptive, correlational, and experimental studies, and write research reports using APA style.
3. Students will prepare and present assignments dealing with controversial and ethical issues related to psychological intervention and research.
- 4a. Specific to the B.A. degree: Students who graduate with a B.A. degree with a major in psychology, in addition to the above outcomes, will also demonstrate an understanding of a second language and culture.
- 4b. Specific to the B.S. degree: Students who graduate with a B.S. degree with a major in psychology, in addition to the above outcomes, will also demonstrate proficiency in science and math.

**Guided Electives. .... 24 hours**

Students, in consultation with their advisor, will take an additional series of courses, possibly a minor, that will further differentiate between the BA and the BS degrees. These electives will also allow for increased skill development that will help the student continue on to a graduate or professional school or to obtain employment in a career not requiring post-baccalaureate training. Although only 39 hours of 3000 and 4000 courses are required by the Board of Regents of the University system of Georgia, the student should not assume the minimum to be the maximum.

**Total hours required for the degree ..... 120 semester hours**

The department assesses the extent to which program requirements create the desired outcomes by a variety of techniques. Examples of these assessments (and related educational outcomes) include the following:

**Examples of Outcome Assessments**

1. Students will be assessed in classroom and experimental settings through written assignments using the scientific method.
2. Students' research reports will be assessed by individual faculty members using appropriate criteria.
3. Students will be assessed on their ability to present controversial and ethical issues at increasingly advanced levels in multiple courses.
- 4a. Specific to the B.A. degree: Students will also be assessed by performance in Area F language and culture courses.
- 4b. Specific to the B.S. degree: Students will also be assessed by performance in Area F science and math courses.

**Minor in Psychology ..... 18 hours**

PSYC 2500 and fifteen (15) hours of additional course work constitute the minor in psychology. PSYC 2500 must be completed before any of the other courses in the minor can be taken, and a grade of “C” or better must be earned in each course in the minor.

**DEPARTMENT OF SPECIAL EDUCATION  
AND COMMUNICATION DISORDERS**

Dr. Karla Hull, Acting Department Head

The Department of Special Education and Communication Disorders is a multidisciplinary department with a program that leads to a B.S. Ed. degree with a major in special education or a major in communication disorders.

The Bachelor of Science in Education degrees with a major in special education or in communication disorders is designed to introduce university students to the fields of special education and speech/language pathology and to allow them to develop skills for intervention with students and clients with disabilities and disorders. In the area of communication disorders, the B.S.Ed. is a pre-professional degree. Pre-professional degrees are also available in the special education options of mild disabilities, mental retardation, deaf education, American Sign Language/Interpreting, and interrelated special education/early childhood.

In order to be awarded certification for public school instruction or licensure for practice, students must complete an advanced degree in one of the selected areas.

Each program in the department has numerous desired outcomes. Examples of these outcomes include the following:

**Selected Educational Outcomes**

1. Students who graduate from teacher preparation programs will demonstrate an acceptable level of content knowledge in multiple disciplines.
2. Students in teacher preparation programs will demonstrate an acceptable level of teaching competency in their major areas by planning for the delivery and assessment of appropriate instruction and therapy in school and clinical settings.
3. Students will plan for culturally responsive instructional opportunities with sensitivity to individual learners.
4. Students will plan for the establishment and integration of technology into instruction, assessment, and communication.

**BACHELOR OF SCIENCE IN EDUCATION DEGREE WITH A  
MAJOR IN COMMUNICATION DISORDERS**

Students admitted to the Communication Disorders program must have a 3.25 GPA.

Student outcomes for the Bachelor of Science in Education degree in with majors in special education and in communication disorders are assessed by multiple instruments and methods.

**Examples of Outcome Assessments**

1. Content knowledge is assessed through objective and narrative written examinations and oral presentations.
2. Planning for the application of content knowledge is assessed with observations by university and public school professionals and private service providers using performance assessments to determine if plans include appropriate College of Education Principles.
3. Students' plans for culturally responsive instruction with sensitivity to individual learners will be evaluated by university personnel to ensure individual needs are met.
4. Students' plans for the establishment and integration of technology into instruction, assessment, and communication will be evaluated through their replications of integration by university personnel who will test the applications and provide feedback to students regarding the satisfaction of the procedure.
