7. Old Business

8. Discussion

Under the *Senate Bylaws* <http://www.valdosta.edu/facsen/documents/bylaws2008.pdf> (Section 7, Paragraph 5), a member of the General Faculty, student body, staff, or administration can speak to the Senate for a specific purpose if a simple majority of the Senators present so approves. Representatives from S.A.V.E. (Students Against Violating the Environment) have asked to be allowed to make a brief presentation to the Senate to explain the following proposal for a Green Fee.

A Green Fee is a student fee that students elect to pay to create a budget for sustainability and energy efficiency projects throughout the VSU campus. Projects such as purchasing individual metering units for each building to gauge energy waste, creating a "grey water system" to save water resources that have been in severe shortage, and purchasing renewable energy technologies to begin placing electricity on the grid are a few ways that a Green Fee can help lead the Southeast in making the necessary changes to address our current climate and energy crises. Students are willing to take a strong stance and initiative to fund this budget for improvements to the infrastructure of Valdosta State immediately and the Green Fee is a way that this can be accomplished while at the same time saving a significant amount of money for the university. S.A.V.E. (Students Against Violating the Environment) are looking for support from the Faculty Senate, the University Council, the Student Government Association, and the VSU Administration to help students build a future for VSU...a clean, green, and just energy future.

Although setting student fees is outside the jurisdiction of the Faculty Senate, if the Senators present on October 16 wish to do so, the Senate could consider a non-binding resolution of support for the concept of a Green Fee as proposed by the S.A.V.E. representatives.

### **Annual Evaluation**

After the faculty member has completed the Annual Faculty Activity Report and Action Plan, the faculty member's department/unit head will complete an Annual Evaluation. This document should evaluate the faculty member's performance in the areas of teaching and instruction, professional growth and productivity, and college and community service. It should also include recommendations if activity in any given area is determined to need improvement. Attention should be given in cases where a faculty member has any form of load adjustment related to their duties within the department. The department/unit head should address the faculty member's planning and goals for the following year and determine if they are aligned with departmental, college, and university goals, and if they are prioritized in a manner that facilitates appropriate levels of activity that may lead to tenure and promotion.

Faculty Activity Reports and supporting documentation will be housed in the department/unit of the faculty member. Copies of the Annual Evaluation document will be forwarded to the appropriate dean and the Vice President for Academic Affairs.

### **Schedule for Annual Faculty Activity Report, Action Plan, and Annual Evaluation**

First semester of employment: \*New faculty members meet with department/unit heads to discuss the Faculty Evaluation Model and departmental expectations.

*Any faculty member who received unsatisfactory ratings on any section of their annual evaluation shall meet with the department head on or before September 15 of the Fall semester to discuss progress since the evaluation.*

End of fall semester: \*All faculty members complete and submit faculty activity report and action plan.

February: \*Department/unit heads meet with all faculty members to go over annual evaluations and action plans.

## Appendix C

### Annual Faculty Activity Report and Action Plan

Faculty Member: \_\_\_\_\_

Department/Division: \_\_\_\_\_

Year: \_\_\_\_\_

The Annual Faculty Activity Report, Action Plan, and Annual Evaluation document plays an important role for faculty, departments, and the units within the university as part of strategic planning and development. This document is also a critical component of the promotion and tenure process for faculty; it serves as the primary source of information for the university annual report and as a means to evaluate individual units' progress toward meeting strategic goals. Individual programs and departments should develop policies that address specific components of the report such as allocation of loads for service or special assignments. It is important that research and scholarly activities be discussed in departments and colleges so that listings of activities are clearly and consistently reported across the unit.

Faculty members completing this form should make every effort clearly to address all of the areas within this document that relate to *the individual's* responsibilities at the university. Activities should be listed only once within the report; do not include the same activity in two different categories. (*Part-time Faculty complete only Section A*).

The role definitions in this document are adapted from Raoul A. Arreola's *Developing a Comprehensive Faculty Evaluation System*. Bolton, MA: Anker, 1995
