

## SECTION 804.01

### **Council on Staff Affairs (COSA)**

Valdosta State University established the Council on Staff Affairs in 1992 with the President's commitment to afford staff members a voice in University governance. The Council serves in an advisory capacity to the President in matters of concern to the staff.

COSA provides a forum for communication of ideas, may recommend policies and procedures relative to the staff for the President's consideration, and is generally concerned with the welfare of staff employees.

Representatives are elected from various occupational categories and areas of the University campus providing a cross sampling of the University staff in addressing matters of concern to the staff.
