NEUROSCIENCE IN ICB-USP

The Institute of Biomedical Sciences (ICB), University of São Paulo, has a notorious performance in the field of Neurosciences. Currently, 30 of its 164 faculty members work in this field, coordinating researches, mentoring graduate students, undergraduate research and supervising post-doctorates.

In addition to its 7 own graduate programs, ICB-USP is part of the program in Neurosciences and Behavior (NEC), Institute of Psychology, University of São Paulo.

Between 2013 and 2014, there were 134 papers published in indexed journals, such as Nature Neuroscience, Behavioural and Brain Sciences, The Journal of Neuroscience and Neuroscience.

GRADUATE PROGRAMS (M.S. AND PH.D)

Cell and Tissue Biology
Host-Pathogen Interactions
Human Physiology
Immunology
Microbiology
Morphofunctional Sciences
Pharmacology
Bioinformatics (interunit)
Biotechnology (interunit)
Neuroscience and Behavior (interunit)
