

Field trip to adult and juvenile institutions and museum

The following photos were taken from our visits to penal institutions and a prison museum in Taiwan. In these visits, we first had an introduction from correctional administrators and then they walked us through cells, factories, gardens, and various facilities. Next we visited a juvenile reform school where we made soaps with youths, tasted their self-made yogurts, and watched a hip-hop performance by 10 dancers. The trips also included a visit to a prison museum remodeled from a prior prison.

Taipei Prison of the Bureau of Corrections

Meeting with correctional administrators

Sculptures crafted by inmates

DIY for soaps with students of the juvenile reform school

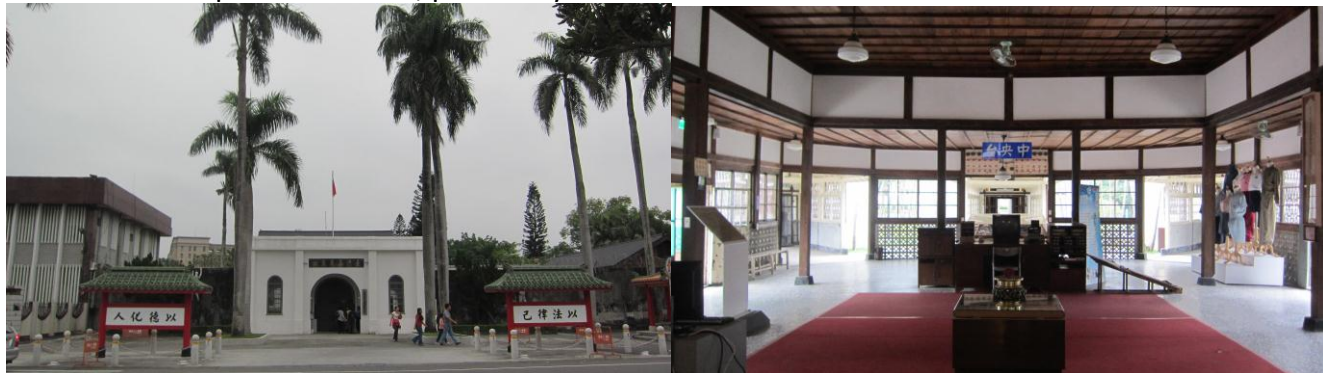

Yogurts made by the juvenile students are excellent! The far-right lady is the principal and my classmate

Photos below were taken from the prison museum

Entrance to the prison museum, previously an adult institution

Warden's office and a model

The cells area and its outside

Gardens maintained by current inmates
