PROFESSIONALISM

The following areas describe the professional expectations for all preservice students in the Department of Middle, Secondary, Reading, and Deaf Education.

Professionalism - Ethics

Educators are professionals guided by ethical commitments to their students, their families and to the communities in which they work. (See: The Code of Ethics for Educators at <http://www.gapsc.com/Rules/Current/Ethics/505-6-.01.pdf>).

Professional values of teachers include respect, integrity, collaboration, active participation, building alliances, resolving conflicts, and reflective, intellectual inquiry. It is expected that future teachers conduct themselves with the professionalism that is required of practicing teachers. If at any time a student’s actions or attitudes are judged to be less than professional appropriate remedial action will be taken. You will participate in the Code of Ethics training during the first week of the semester.

Professionalism – Dress code

In this course, classes are held in public schools. Professional dress code is required.

Professionalism - Communication

Effective written and verbal communication skills are critical to you as a professional educator as you interact with students, colleagues, administrators, and parents. Those individuals whose communication skills (verbal or written) indicate a need for assistance will be referred to the appropriate services on campus.

Professionalism - Assignments

All assignments should conform to the professional standards expected of university students. Papers must be typed, double-spaced in an appropriate font style and size with no spelling or grammatical errors. Assignments will be graded on content, composition, spelling, punctuation, and grammar. In papers, ideas obtained from sources must be documented using APA style.

Professionalism - Diversity

Professional educators are expected to embrace diversity. A variety of materials and instructional strategies will be used to meet the needs of different learning styles of diverse learners in the class. Students will be provided with opportunities to gain the knowledge, skills and understanding to provide effective instruction in multicultural classrooms. Mutual respect for people of diverse characteristics, beliefs, and abilities should be evident for all teacher candidates.

DEPARTMENT OF MIDDLE, SECONDARY, READING, AND DEAF EDUCATION STATEMENT ON ACADEMIC INTEGRITY

Educators are professionals guided by ethical commitments to their students, their families and to the communities in which they work. (See: The [Code of Ethics for Educators](#) at <http://www.nea.org/home/30442.htm>). Professional values of teachers include respect, integrity, collaboration, active participation, building alliances, resolving conflicts, and reflective, intellectual inquiry. Future teachers should conduct themselves with the professionalism that is required of practicing teachers.

- In assignments and discussion postings, you should never provide names or identifying information about other people (students, other professionals, or parents). For confidentiality, you should use pseudonyms for students and should not identify schools unless you are using information that is publically available.
- All assignments should be your own original work, not group work. If you use ideas from other sources, you must provide a full citation using APA style – name(s) of author(s); date of publication or retrieval date; title of article/book/web page; name and location of publisher (book), name of journal, or URL of website. Do not share your work with others. If student A uses work from student B with or without permission, both students receive zero grades for the assignment.

DESCRIPTION OF ACADEMIC DISHONESTY

To ensure there are no chances for students to misunderstand what constitutes plagiarism, cheating, or prohibited collaboration across the University System of Georgia, this section will describe in some detail the behaviors which are viewed as academically dishonest.

While students are likely to understand plagiarism as stealing someone's words as their own, there are many types of plagiarism.

- **Stealing Verbatim:** This is exactly as it sounds. If, when composing an assignment, students take a sentence, a portion of a phrase, or even a unique expression which is not theirs, and submit it as their own (without quoting the original source), they have committed plagiarism. **Sentences that are verbatim or nearly verbatim (more than 70% match) should be both quoted and cited.**
- **Use of Professional Resources Without Acknowledgement.** Students may not use published professional resources; including lesson plans, learning activities, or PowerPoint presentations, without citing the source.
- **Misquoting:** If, when composing an assignment, students directly quote a source and cite it, but alter the author's words to strengthen their argument, they have committed plagiarism.
- **Paraphrasing or Summarizing Without Citing:** An allowable practice in academia is for students to take an author's words, change the words (without changing the meaning) so that it better fits their narrative. Paraphrasing goes beyond changing a couple of words. However, even when paraphrasing or summarizing another author's words, students *must* cite that original source. If they do not cite the original source, they have effectively stolen the original author's idea and have committed plagiarism.
- **Duplicating Publication:** Students may not reuse or recycle any previous assignments used in another course, or in any other published venue, without the explicit permission from the course instructor. The instructors in the Master's Degree Program in Curriculum and Instruction do *not* allow students to reuse or recycle their assignments in any course. If students have done this, they have committed plagiarism.
- **Duplication of Peer Student Work:** Students may not submit assignments that duplicate in whole or part the work of other students, with or without the other student's express consent or knowledge.

Note: Assignments in this course may be checked electronically for plagiarism.

By taking this course, you agree that all required course work may be subject to submission for textual similarity review within BlazeVIEW and GOML.
