

Retiree/COBRA Billing Statement

Name
ID Number
Invoice Date

Important Information Section

A new look! As part of our on-going efforts to provide you with clear and concise information, we have redesigned your Benefits Billing Statement to be more user-friendly. You will notice that your new statement now shows your last payment received and has a perforated stub to return with your payment.

Additionally, we have been officially notified that the Board of Regents has now addressed delinquency with Retiree Billing. Per the Board, "If a participant is more than sixty (60) days delinquent from the date of the bill, benefits should be terminated and collection procedures initiated to collect any outstanding balance". We will begin to initiate those procedures for those who fail to meet this time frame.

System testing is also underway to offer direct debiting for USG retirees for benefit payments. We will keep you updated as to when direct debit for benefit billing becomes available.

Payments Received and Beginning Balance Section

An amount in parenthesis is a credit

The Total Payments Received shows all payments posted since the last statement.

Total Payments Received ()

The Past Due amount shows a total of all the charges in the Beginning Balance that are at least 30 days old as of the date of this statement.

Past Due Amount

The beginning balance shows what your account balance was before the current charges posted to your account. This balance has already been reduced by payments received above.

Beginning Balance

Account Activity Section

This section shows current charges and any adjustments that have been made to your account.

CHARGE/ADJUSTMENT	DATE	AMOUNT
