

As advised previously, the ADP system is going down 7/31 at close of business for final conversion and will be back up on August 10. If you are an employee (staff, faculty, student) and have worked this summer you must register and add ETime. We want to ensure that you do not experience any problems with your August paycheck. You will not be able to access the system again until August 10; register and add ETime today.

You can find tutorials, user guides, training schedules, and frequently asked questions on our website www.valdosta.edu/finadmin/training/sharedservices.shtml
