1. Formerly Bibliographic 049\$a bracket [Location name], a mostly discontinued practice when OCLC EDX (Electronic Data Exchange) initiated in March, 2001.
2. Microfiche, Microfilm, or Bound periodical volumes placed in 3rd floor stacks (atypical practice).
3. Non-musical audiotape cassettes.
4. Kit or slides to be shelved in 3rd floor stacks. *Media forms other than CD texts, non-musical sound recordings, and video 's.*
5. Item Record creation isn't necessary for non-circulating materials. Possible exceptions would include temporary barcode assignment to display bindery status dates and/or unusual title that does circulate and therefore 1:1 correspondence between barcode and volume.
6. Client Display normalized to Spine prefix, as a reminder. In the Cataloging Client, select Edit, Show holdings locations for a cheat sheet like prompt, or as displayed as Permanent Location field in item record.
