# ACADEMIC INFORMATION

- Credit Hour Production and Faculty Positions Earned
  - Number and Type of Degrees Conferred
  - Academic Majors Offered
  - Degrees Conferred by College
  - Library Acquisitions
  - Computer Resources
- 

◆ The degree level distribution is: doctoral (0 percent), specialists (3 percent), masters (20 percent), bachelors (74 percent), and associate (3 percent).

◆ Degrees conferred during FY 2000 totaled 1,782.

Doctoral .....	2
Specialists .....	46
Masters .....	363
Bachelors .....	1,314
Associate .....	57

\*Actual credit hours obtained from the Quarterly/Semester Enrollment Analysis, prepared by the Office of the Registrar and the Computer Center of VSU.

Includes Summer Quarter 1998, Fall Semester 1998, Spring Semester 1999, and Summer Semester 1999.

\*\*Converted credit hours obtained by multiplying the actual Fall 1998, Spring 1999 and Summer 1999 Semester credit hours by 3/2 to have equivalent quarter credit hours.

\*\*\*Converted faculty positions earned obtained by using the base formula and the converted credit hours.

Note: 15 hr/wk and 12 hr/wk formulas (found on page 33) are the most current formulas to determine Faculty Positions Earned using semester hours.

NOTE: Totals may vary from previous Fact Books due to rearrangement of departments

NOTE: Differences between Credit hour Production and Faculty Positions Earned and Detailed Credit Hours and Faculty Positions Earned on the following table are due to rounding.

**DETAILED CREDIT HOUR PRODUCTION  
& FACULTY POSITIONS EARNED BY COLLEGE & DEPARTMENT, FISCAL YEAR 2000 - 2001**

Group 5	0	0	512	0	0	341	0	0	273

Group 1: Law, Letters, Library Science, Psychology, Social Sciences  
 Group 2: Area Studies, Business, Communications, Education, Home Economics, Mathematics, Public Affairs, Interdisciplinary Studies  
 Group 3: Agriculture, Architecture, Biological Science, Computer Science, Engineering, Fine & Applied Arts, Foreign Languages, Health Professions, Physical Sciences  
 Group 4: Remedial/Developmental Programs  
 Group 5: Medicine, Dentistry, Veterinary Medicine

The Base Formula is used to determine Faculty Positions Earned under the quarter system. The 15 hour/week Formula is used to determine Faculty Positions Earned under the semester system, assuming the professors will teach an average of 15 hours per week. The 12 hour/week Formula is used to determine Faculty Positions Earned under the semester system, assuming the professors will teach an average of 12 hours per week.

NOTE: The University System operates under a formula funding system. The formula serves as a basis for requesting funding from the Legislature only and is not used to allocate money to the various institutions.

NOTE: Differences between Credit hour Production and Faculty Positions Earned and Detailed Credit Hours and Faculty Positions Earned on the previous table are due to rounding.

**LIBRARY ACQUISITIONS - FISCAL YEARS 1999 THROUGH 2001**

Description: The Library, completed in 1972, is the center of academic life for the campus. Having 87,230 square feet, it houses approximately 429,157 bound volumes. The Library also contains nearly 3,000 current periodicals and newspapers, and a microform collection of over one million units. The Library is a Selective Depository of U.S. Government publications and maps, has a special collection in the field of Southern History, and houses the archives of Contemporary South Georgia History.

LIBRARY ADDITIONS & HOLDINGS	Bookstock No. of Volumes	Govt. Documents, Collections	Microforms, All Types	Periodical, Serial Titles Received	Library Collection Acquisitions (FY)
Added 1998-1999	9,198	140	30,636		
Held 6/30/1999	413,439	97,617	997,827		
As of 6/30/1999				3,072	\$801,901
Added 1999-2000	8,761	-372	16,829		
Held 6/30/2000	422,059	97,245	1,014,656		
As of 6/30/2000				3,097	\$953,892
Added 2000-2001	7,098	4,570	25,712		
Held 6/30/2001	429,157	101,815	1,040,368		
As of 6/30/2001				2,869	\$1,011,912

Note: Due to the deletion of certain items at Odum Library, some numbers are less than those found in previous Fact Books.

## COMPUTER FACILITIES

The university operates a variety of sophisticated, state-of-the-art computing and networking facilities to support its academic, research and administrative activities. The facilities include several powerful UNIX-based central servers, 2800 microcomputers, 65 high-end workstations and 40-45 distributed file servers running Novell Netware or Microsoft NT, all of which are interconnected via a high speed data network.

Located in the Computer Center in Nevins Hall, three Hewlett Packard (HP) 9000 large scale business servers, Models G50, G70, and K460 support all student and financial related processing, as well as various other applications software systems. To meet VSU's increasing requirements, these three computers together comprise a total systems environment that provides one of the largest and most modern centers in the University System. VSU has a very complete implementation of the fourth-generation Banner Student Information and Financial Aid Systems which greatly enhance student support operations such as admissions, registration, advising and financial aid processing. Student registration and general access to their data can be easily accomplished via the Web, the Campus Pipeline "portal" and/or the EPOS Integrated Voice Response System. A new state-of-the-art Business and Financial Software System from Peoplesoft Corporation, also centrally procured by the Board of Regents, is also implemented.

Housed in the Data Communications Center in Ashley Hall, a Sun Ultra Enterprise 3000 provides electronic mail services for the students, faculty and staff and DS1/DS3 circuit access to the state-wide PeachNet and other national/international networks. Two Sun Enterprise 450's support video streaming and LDAP, Portal and WebCT services. A Sun Server E420R supports VSU's popular and heavily utilized Web site and it's thousands of pages. A Sun SparcServer 1000E provides Boot-P, Listserv, and other similar services. A second Sun SparcServer 1000E operates as a

SOURCE: Information Technology Department, 2001.

specialized applications server for several academic departments with software products such as, MathLab, GIS, C++, LISP, and others. A third Sun SparcServer 1000 performs as the main name server for the campus, allowing VSU to be 'registered' with Internet and utilize the short address of valdosta.edu.

A very extensive and sophisticated fiber-optic based data network, with its central hub of bridges and routers located in Pine Hall (the Old Plant Operations building), provides Ethernet/Fast Ethernet protocol (10/100 MBps) and very high-speed Gigabit/ATM communications between all servers and microcomputers. The 20 miles of fiber and 60 miles of copper wire connects the main campus buildings, as well as two on North Campus, the VSU Regional Center for Continuing Education and ten buildings adjacent to the main campus. As another 'first' in the University System, a wireless communications network, HallNet, has been implemented to provide Internet access at 11 Mbps in the Residence Halls, Library, and new Biology/Chemistry Building. Additional remote dial-in modem access is supported, as well as outside access via PeachNet to the internet.

Microcomputers are provided to every faculty member and all staff in administrative offices. A total of 800 microcomputers are available to students in 28 labs, with 10-50 machines each, located throughout the campus. A special-purpose AutoCAD Lab running WinNT computers for VSU's pre-engineering program is in Nevins Hall. Two labs are installed at Kings Bay Naval Base to support VSU operations at that location. All machines have the campus standard software installed - Microsoft Office Pro (Word, Excel, Power Point, Access) and all communications/e-mail products (Netscape, Eudora, and other). Various microcomputer servers, Sun and Silicon Graphics high-end workstations, local networks and other facilities are located in the colleges and administrative offices to provide additional support to students, faculty, and staff. The Library operates a DEC 4200 minicomputer, a Sun SparcServer 1000, a student micro lab, 35 Galileo work stations and 60 personal computers to support their operations.
