DEFINITIONS:

Faculty - The "faculty" above does not include administrators who hold Board approved academic rank as does the "faculty" on the opposite page. Thus, faculty for this page are those persons whose primary assignments are instruction, research, or public service and who hold academic rank: includes department chairpersons if their principal activity is instructional; includes persons on nine-month and twelve-month contracts.

Executive/Administrative/Managerial - persons whose assignments require primary responsibility in management of the institution; includes department chairpersons if their principal activity is administrative.

Professional Non-Faculty - persons with specialized professional training who cannot be classified in any of the other classifications (i.e., librarians, lawyers, physicians).

Secretarial/Clerical - persons such as secretaries, bookkeepers, sales clerks, and data entry clerks.

Technical/Paraprofessional - persons with technical skills acquired through experience or a technical degree (i.e., computer programmers, draftspersons).

Skilled Crafts - persons with special manual skills (i.e., mechanics, electricians, machinists, carpenters).

Service/Maintenance - persons with limited skills (i.e., food service and cleaning workers, drivers, laborers, and groundskeepers). Number of persons employed in this classification has declined in recent years since a number of institutions are now contracting with an outside agency for these services.
