Among human resource managers, more than 2 in 5 said they spend less than a minute looking at a resume and nearly 1 in 4 spend less than 30 seconds. It is true that appearance and apparel choices play a big role in the hiring decision. You've worked so hard to get that interview, make sure you play it to your advantage by dressing the part. Being a professional in the workplace means much more than simply wearing nice attire or possessing a college degree or impressive title. Co-hosted with Housing and Residence Life, this workshop will teach you the important traits of conveying professionalism in the workplace.
