

VALDOSTA STATE UNIVERSITY

HEALTH CENTER POLICY

Access to Student Health Center Services

- Students must pay the student health fee in order to use the student health center.
- There are certain medical conditions (i.e. pregnancy) where the health center will not be able to treat the student for any purpose and will refer the student back to their primary physician. In these cases the student is eligible for a refund of the student health fee.
- As stipulated in the Housing contract, any student residing in campus housing regardless of the number of hours for which they are enrolled is required to pay the student health fee.
