### ECED 7220 Early Childhood Environments

Principles for planning and implementing appropriate programs and learning environments for young children are presented. Program alternatives and models in early childhood education are presented. The integration of computer technology in supporting appropriate programs for young children will be included. Students will plan and implement changes in a classroom environment to address the principles examined in the course.

# ECED 7320 Curriculum and Instructional Strategies P-5

Review of the content areas in the early childhood curriculum. Emphasis will be placed on implication of effective strategies that utilize a variety of resources and technologies to enhance teaching and learning within diverse environments.

#### ECED 7330 Issues and Trends in Early Childhood Education 3-0-3

Examination of research, trends, and problems in early childhood education, with special reference to professional ethics, mentoring, and various delivery systems for early childhood education programs. Focus is on the impact of relevant federal, state, or local public education issues and trends.

#### ECED 7410 The Social Sciences in Early Childhood Education

A study of the influence of the social sciences in early childhood education. The content, curriculum, and implementation of the social studies program are examined. The application of interdisciplinary knowledge from related fields such as sociology, psychology, health services, special education, history, philosophy, and anthropology to social learning is explored. Relevant computer software to support the social science curriculum in early childhood will be included. The student will plan and implement curricular improvement based on theory and practice examined in the course.

#### ECED 7420 Child, Family, and Society

Examination of the research and dominant theories of human development and sociocultural development within the context of the family, community, and society. Strategies for collaboration between home and school will be emphasized, and interagency cooperation within the community will be examined in relation to the benefits for young children and their families. The student will investigate a variety of community agencies serving children and families to enhance and apply an understanding of community resources which support the education of young children.

# ECED 7430 Integrating Math, Science, and Technology in Early

#### **Childhood Education**

Explores the integration of curriculum in math, science, and technology. Special emphasis is placed on the utilization of inquiry methods for enhancing children's ability to analyze, to evaluate, and to make inferences from oral, written, and visual materials. Methodology for developing the skills of problem solving, decision making, and critical and creative thinking skills is explored. The use of computer technology to enhance the math, science, and technology curriculum will be included. The student will plan and implement curricular improvement based on theory and practice examined in the course.

#### ECED 7540 Children, Play, and Development

Focus on the definitions and the characteristics of play as a basis for understanding cultural and gender differences and similarities in children's play, the multiple stages of play by developmental age, play in special populations, and the relationship of play to intellectual, social, physical, and emotional development. Field based observations and experiences with multiple ages of children as they engage in play is included.

#### ECED 7550 The Integrated Early Childhood Curriculum

In depth investigation of developmentally appropriate ECE integrated curricula which employ a holistic philosophy of ECE. Principles and processes of integrated curriculum development will be examined.

#### ECED 8200 Theoretical Models in Early Childhood Education psycholinguistics. ECED 8230 Mentoring and Advocacy in Early Childhood Education 2-0-2 An overview of the knowledge, understandings, and skills necessary to assume mentoring and advocacy roles in various capacities in early childhood education. Emphasis is given to the development of early childhood advocates who establish programs and policy that significantly and positively impact the young children, families, and communities with whom they work. Professional ethics and the development of mentoring strategies are integral parts of this course. ECED 8300 Area Studies in ECE Curriculum and Instruction 3-0-3 A critical analysis of the current status of innovations and trends for curriculum development in various subject fields. Patterns of organization and techniques for curriculum development are examined and evaluated. Recognition is given to the impact of a multidimensional curriculum on planning, teaching, and learning. ECED 8330 Design and Evaluation of Quality Programs in ECE 3-0-3 A study of the issues related to designing and evaluating quality programs in early childhood education. Related research is examined regarding programs and educational environments for children from diverse cultural and socio-economic backgrounds as well as differing ages and developmental levels, including children with special needs. ECED 8410 Special Topic: Early Childhood Education Today 3-0-3 An interdisciplinary approach to the study of the historical, philosophical, sociological, and anthropological perspectives and influences on contemporary early childhood education. ECED 8420 Special Topic: International Perspectives in ECE 3-0-3 Directed readings in international perspectives in early childhood education. Emphasis is placed on the international impact of contemporary early childhood education and research on young children in early childhood settings and programs throughout the world. ECED 8998 Applied Research Project 2-0-2 Supervised development and investigation of a research problem in early childhood education.

## EDAT: EDUCATION-ACCOMPLISHED TEACHING

#### **EDAT 6000** Professional Decision Making

Preparation for making informed decisions about effective practices, assessment of learning, and professional actions that will enable educators to optimize both instructional performance and student achievement. This course will focus on the self-assessment of individual student understanding and application of master teacher outcomes based on National Board for Professional Teaching Standards.

EDAT 6001 Using Assessment to Improve Teaching and Learning **3 credit hours** Advanced study of the critical role of formative and summative assessment implementation and evaluation in an effective standards-based P-12 classroom. The course addresses knowledge of assessment theory and skill in effective practice.

EDAT 6115 Knowledge of Students and Their Learning 3 credit hours A critical examination of research and theories relevant to effective teaching and learning, student and teacher motivation, at-risk students, classroom management, variability in student learning, self-esteem, behavioral learning, cognitive learning, social learning, brain-based learning, multiple intelligences, and assessment. The course requires a 30-hour field experience (15 hours in the content area, 15 hours in special education) in the public school classroom.

#### 3 credit hours

Prerequisite: RSCH 8000. An examination of the major theoretical models that influence early childhood education. The contributions to early childhood education of various perspectives will be examined, particularly constructivism, sociolinguistics, and

#### EDAT 6159 Multicultural Studies Across the Curriculum

An examination of professional literature, curricula, and teaching practices related to cultural diversity in education settings. The course critically examines how traditional education promotes or hinders student success and identifies elements of culturally responsive pedagogy and their application to curriculum development and learning. The course requires a 10-hour field experience in which teachers explore the cultural resources of the communities in which they work.

#### EDAT 6226 Curriculum Design for Student Achievement

An investigation of best practices in curriculum development, curriculum alignment reflecting state and national standards, and assessment in ensuring high student achievement. The course explores subject-specific pedagogical content, related content areas, and inclusion of resources and technology that enhance curriculum development and implementation in the classroom. The course requires a 30-hour field experience in the public school environment in activities related to curriculum development and alignment. **3 credit hours** 

#### EDAT 7100 Research Methodology in Education

A survey of education and educationally-related research methods incorporating an applied approach to research design. The ability to read, interpret, conduct and report research is emphasized to improve practice in educational settings.

#### EDAT 7131 Enhancing Student Performance

Best practices for selecting and adapting curriculum instructions resources and assessments in order to maximize student learning. The course provides teachers with a way to identify, analyze, and use results from student assessments to plan instruction aimed at enhancing and demonstrating student learning.

#### EDAT 7132 Framework for Teaching

A study of teaching and learning strategies associated with effective teaching practices. Emphasis is placed upon the relationships that exist between student development, instructional practices, educational environments, continuous reflection and assessment, learning communities, and dispositions of the profession.

#### EDAT 7133 Trends, Issues, and Research in Education Frameworks for designing and evaluating educational practices and programs within the context of current trends and issues in education. Emphasis is placed on specific research findings and their applications to practice, in addition to the development of analytical and communicative skills needed to improve teaching and learning.

#### **EDUC: EDUCATION**

#### EDUC 8010 Reflective Teaching Practices Seminar

#### Graded "Satisfactory" or "Unsatisfactory." Introductory course for a six-course sequence of core classes for the Educational Specialist degree. National Board for Professional Teaching Standards are used for the candidates' self-assessment of professional goals that are based upon an understanding and application of a master teacher as leader. This course provides the basis for an individual program of study by identifying appropriate guided electives.

#### EDUC 8020 Using Assessment and Research Data

Prerequisite: EDUC 8010. Techniques for establishing reliable and valid data sources for student, classroom, and school-improvement decisions. Students learn how to utilize technology tools for educational management.

3-0-3

3-0-3

3 credit hours

3 credit hours

**3 credit hours** 

**3 credit hours** 

#### **3 credit hours**

#### EDUC 8030 Developing and Leading a Community of Diverse Learners

Prerequisite: EDUC 8010. Examination of the impact of cultural, multicultural, diversity, and exceptionality issues on adults' and children's relationships, communication, and educational practices in American schools. Appropriate verbal and nonverbal communication techniques are addressed.

#### EDUC 8040 Strategic Planning for School Reform

Prerequisite: EDUC 8010. Study of major theories and practices in the development and evaluation of school-based programs, including curricular, co-curricular, and staff development initiatives for the improvement of student learning. 3-0-3

### **EDUC 8050** Action Research

Prerequisite: EDUC 8010. Practical action research utilized for the purpose of school reform and student achievement; an examination of the reflective roles of the classroom teacher and how reflection may lead to school improvement.

EDUC 8880 Capstone Seminar

Prerequisites: EDUC 8010, EDUC 8020, EDUC 8030, EDUC 8040, EDUC 8050. Capstone course resulting in a portfolio demonstrating candidates' analysis of teaching, leadership, and mentoring. Analysis is based on the National Board Standards, educational specialist degree goals, professional development program plan designed in EDUC 8010, and candidates' school-improvement plans.

### **ENGL: ENGLISH**

ENGL 6000 Graduate Option 3-0-3
An English Department course, numbered 4000 or above, which may be taken at the gradu-
ate level with appropriate adjustments agreed on by the student and the professor.
ENGL 6000 Studies in Composition Theory 3-0-3
Prerequisite or co-requisite: ENGL 3060 or ENGL 3080, depending upon major track.
A study of the theory and practice of composition pedagogy, including crafting assignments;
planning, drafting, and revising texts; and evaluating student writing.
ENGL 7000 Approaches to Graduate Study 3-0-3
An introduction to the fields and methods of research and writing in graduate literary study.
ENGL 7010 Approaches to Critical Theory 3-0-3
An introduction to the role and function of literary criticism in the context of literary studies.
ENGL 7110 Studies in British Literature to 1500 3-0-3
A focused survey in the area of British literature to 1500, with special emphasis on themes,
genres, and/or figures. Attention will be given to cultural background and/or critical perspective.
ENGL 7120 Studies in British Literature 1500-1660 3-0-3
A focused survey in the area of British literature from 1500-1660, with special emphasis on
themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.
ENGL 7130 Studies in British Literature 1660-1800 3-0-3
A focused survey in the area of British literature from 1660-1800, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.
ENGL 7140 Studies in British Romantic Literature 3-0-3
A focused survey in the area of Romantic literature, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective. <b>ENGL 7145 Studies in Victorian Literature</b> 3-0- <b>3</b>
A focused survey in the area of Victorian literature, with special emphasis on themes, genres, and/or figures. Attention will be given to cultural background and/or critical perspective.

3-0-**3** 

<b>ENGL 7150</b> Studies in Modern and Contemporary British Literature A focused survey in the area of modern and contemporary literature, with special em	3-0- <b>3</b> nphasis
on themes, genres, and/or figures. Attention will be given to cultural background critical perspective.	
ENGL 7210 Studies in American Literature to 1800	3-0- <b>3</b>
A focused survey in the area of American literature to 1800, with special emphatiments, genres, and/or figures. Attention will be given to cultural background and/or perspective.	
ENGL 7220 Studies in American Literature 1800-1865	3-0- <b>3</b>
A focused survey in the area of American literature from 1800 to 1865, with special e	
sis on themes, genres, and/or figures. Attention will be given to cultural background critical perspective.	-
ENGL 7230 Studies in American Literature 1865-1914	3-0- <b>3</b>
A focused survey in the area of American literature from 1865 to 1900, with special e sis on themes, genres, and/or figures. Attention will be given to cultural background critical perspective.	
ENGL 7240 Studies in Modern and Contemporary American Literature	3-0- <b>3</b>
A focused survey in the area of modern and contemporary American literature, with	special
emphasis on themes, genres, and/or figures. Attention will be given to cultural back and/or critical perspective.	
ENGL 7300 Studies in Special Topics	3-0- <b>3</b>
A focused survey in a selected topic, with special emphasis on themes, genres,	and/or
figures. Attention will be given to cultural background and/or critical perspective.	
ENGL 7320 Studies in Genre	3-0- <b>3</b>
A focused survey in genre studies, with special emphasis on themes, genres, and/or f Attention will be given to cultural background and/or critical perspective.	-
ENGL 7600 Studies in Rhetoric and Composition	3-0- <b>3</b>
A focused survey in the area of rhetoric and/or composition theory.	
ENGL 8110 Seminar in British Literature to 1500	3-0- <b>3</b>
A seminar in the area of British literature to 1500.	202
<b>ENGL 8120 Seminar in British Literature 1500-1660</b> A seminar in the area of British literature from 1500-1660.	3-0- <b>3</b>
ENGL 8130 Seminar in British Literature 1660-1800	3-0- <b>3</b>
A seminar in the area of British literature from 1660-1800.	3-0-3
ENGL 8140 Seminar in British Romantic Literature	3-0- <b>3</b>
A seminar in the area of Romantic literature.	505
ENGL 8145 Seminar in Victorian Literature	3-0- <b>3</b>
A seminar in the area of Victorian literature.	000
ENGL 8150 Seminar in Modern and Contemporary British Literature	3-0- <b>3</b>
A seminar in the area of modern and contemporary literature.	
ENGL 8210 Seminar in American Literature to 1800	3-0- <b>3</b>
A seminar in the area of American literature to 1800.	
ENGL 8220 Seminar in American Literature 1800-1865	3-0- <b>3</b>
A seminar in the area of American literature from 1800 to 1865.	
ENGL 8230 Seminar in American Literature 1865-1914	3-0- <b>3</b>
A seminar in the area of American literature from 1865 to 1900.	
ENGL 8240 Seminar in Modern and Contemporary American Literature	3-0- <b>3</b>
A seminar in the area of modern and contemporary American literature.	
ENGL 8300 Seminar in Special Topics	3-0- <b>3</b>
A seminar within the area of language and/or literature.	202
ENGL 8320 Seminar in Genre A seminar in genre studies.	3-0- <b>3</b>
A seminar in genie suures.	

ENGL 8600 Seminar in Rhetoric and Composition	3-0- <b>3</b>
A seminar in the area of rhetoric and/or composition theory.	
ENGL 8690 Workshop in Rhetoric and Composition	1-0-1 to 6-0-6
Writing-intensive and leadership course for teachers that promotes wri subject areas and grade levels. Participants write for personal and pr research composition theory, and design a lesson based on their experie program provides nine Staff Development Units or six hours of master' course requires formal application and interview into the South Georg Graduates from this program also participate in at least two programs,	rofessional reasons, ence. The four-week 's degree credit. The gia Writing Project.
school or the South Georgia Writing Project over the course of the follo	U
ENGL 8700 Directed Study	3-0- <b>3</b>
Research in selected areas of language and literature.	
ENGL 8800 Seminar for Teaching Assistants	1-0-1
A seminar for graduate students currently teaching composition course	S.
ENGL 8999 Thesis	3-0- <b>3</b> to 6-0- <b>6</b>
Individualized study and research in preparation for a work of fifty or	more pages demon-

onstrating competent and substantial research coupled with an innovative approach to the subject matter. May be repeated for credit.

#### ESOL: ENGLISH FOR SPEAKERS OF OTHER LANGUAGES

#### **ESOL 6010** Applied Linguistics for ESOL Teachers

A study of the nature, structure, and diversity of language, emphasizing the phonological, syntactic, and semantic patterns of English in comparison and contrast with feathers of other selected languages. Prospective teachers will explore the principles of linguistic systems and major theorists and schools of linguistic thought within the cultural framework of working with communities of non-native English speakers.

#### ESOL 6020 Cultural Perspectives for ESOL Teachers

A study of culture and its relationship with language and education. Prospective teachers will investigate theories related to the nature and role of culture and cultural programs in the construction of learning environments and support linguistically diverse learners.

#### ESOL 6030 Methods and Materials for Teaching ESOL 3-0-3 Methods of teaching English at the elementary-, middle-, and high school-levels to students whose first language is not English. Topics includes theories of second language acquisition, instructional strategies and materials, methods of evaluating proficiency and progress, and curriculum-building.

### FLED: FOREIGN LANGUAGE EDUCATION

#### 2-0-2 FLED 7100 Professional Development Seminar I Through interaction with peers and education professionals, students perform self-assessment, determine areas of skill and knowledge in need of improvement, and design an effective career growth and development plan, as a preliminary step in expanding and modifying their personal teaching strategies.

FLED 7500 Theory and Practice in Second Language Acquisition 2-0-2 Discussion, analysis, and practice of the various theories and models of second-language acquisition.

3-0-3

#### FLED 7600 Research and Design

Research curriculum design in foreign language education with emphasis contemporary issues. 2-0-**2** 

# FLED 7800 Professional Development Seminar II

A capstone experience requiring students to reflect upon their teaching experiences through interactions with peers, secondary education professionals and other educators in their content area. The preparation and presentation of a portfolio reflecting their student teaching experience is required.

# **FREN: FRENCH**

FREN 5410 Francophone Literature	3-0- <b>3</b>
Selected works of 20th-century Francophone writers from the French-speaking con	munity
outside of France, especially the Caribbean, Africa, and Quebec.	
FREN 5610 Women Writers of 17th-Century France	3-0- <b>3</b>
Selected literary works of major women writers of 17th-century France.	
FREN 5630 Topics in French Language or Literature	1-0-1
Intensive study to improve the student's ability in a particular area of French lang	uage or
Francophone literature. This course requires independent work of the student and	may be
repeated with different topics for a total of 3 hours.	
FREN 6400 French Phonetics and Advanced Conversation	3-0- <b>3</b>
Study of phonetic principles and their applications.	
FREN 6410 French Composition and Advanced Grammar	3-0- <b>3</b>
Advanced study of grammar, practical composition, and refinement of written exp	ression.
FREN 6420 French Translation: English to French	3-0- <b>3</b>
Translation techniques from English to French, including idiomatic expressions and	d exten-
sive practice in written French.	
FREN 6650 French Literature of the 20th Century	3-0- <b>3</b>
Selected major literary works of France, from 1901 to the present.	
FREN 6950 Directed Study	3-0 <b>-3</b>
Study in an area or topic of Francophone literature or the French language not n	ormally
found in established courses offered by the department. The work is done under the	e super-
vision of a professor.	

# **GEOG: GEOGRAPHY**

<b>GEOG 5020</b> Geoscience Perspectives on Global Climate Change 1-0-	·1
Also offered as GEOL 5020. Study of global climate change from the perspective of the	ıe
geoscientist. Topics include whether or not global climate change is occurring, possible	le
causes of global climate change, climate change in the geologic record, implications of clima	te
change on the human population, and proposed methods and policies designed to limit of	or
reverse processes believed to lead to global climate change.	
GEOG 5050 Computer Cartography and Image Analysis 2-2-	.3
An introduction to digital production of general and thematic maps. Lectures and laborator	сy
exercises cover principles of cartography and remote sensing as well as the manipulation an	ıd
visualization of spatial data and imagery.	
GEOG 5051 Introduction to Geographic Information Systems 2-2-	.3
An examination of geographic information systems, including methods of capture, storag	e,
analysis, and display of spatially-referenced data. Laboratory exercises provide experience	ce
with typical GIS operations and applications.	

# tion is different each summer.

**GEOG 5053** Application Issues in Geographic Information Systems

a GIS can be used to solve specific planning problems. **GEOG 5100** Regional Planning and Environmental Management

**GEOG 5052** Advanced Geographic Information Systems

and software portfolio for students.

planning policy and regulation. **GEOG 5120** Geosciences Field Trip

**GEOG 5150** Meteorology and Climatology A detailed examination of atmospheric motions and climatic controls including, the Earth's radiation and energy balance, air mass dynamics, weather systems, and past and present climates of the Earth.

tive operations, spatial modeling and technical support of complex land use and natural resource management decision making. Laboratory exercises designed to form a cartographic

Operational and planning issues in GIS. Students will learn which issues need to be considered when proposing and implementing a GIS and will have opportunities to evaluate how

ment at scales larger than municipalities with an emphasis on the environmental impacts of

required. Offered only during Summer I sessions. Geology and geography of selected regions studied by readings on the region of interest during the first week, followed by a twoweek field trip to points of interest. The interactions among geology, surficial processes, and organisms and how these interactions impact humans will be emphasized. Field trip destina-

#### **GEOG 5200 History of Life**

Also listed as GEOL 5200. Principles of paleontology with emphasis on the history of life including vertebrates. Includes an account of the outstanding forms of life from the beginning of earthtime to the present, and those paleontologically significant groups that are uncommon, different, or extinct today.

#### **GEOG 5210** An Introduction to Hydrology

Also listed as GEOL 5210. An introduction to surface and subsurface hydrology, examining components of the hydrologic cycle. Topics include local and global water balance, precipitation, interception and infiltration, runoff, stream flow, water storage, and groundwater. This course makes use of some mathematical equations.

# **GEOG 5300 An Introduction to Process Geomorphology**

Also listed as GEOL 5300. An introduction to process geomorphology examining landforms and their formative processes. Topics include weathering and slope, fluvial, coastal, aeolian, glacial and periglacial processes, and the application of soils to geomorphology. This course makes use of some mathematical equations. Field trip required.

#### **GEOG 5310** Physiography of North America

The physiographic description, including the landforms, soils, structural framework, climate, plant and animal geography, natural resources, and the unique environmental problems of each major physiographic province of the United States and Canada, including Alaska, Hawaii, and Puerto Rico. 3-0-3

### **GEOG 5320** Geomorphology of Fluvial and Coastal Environments

An examination of processes and landforms in fluvial (river) and coastal environments. Fluvial topics include channel geometry and pattern, characteristics of flow, sediment load, bedforms, and floodplains. Coastal topics include the study of waves and tides, coastal sediment transport, beaches, and the effects of changing sea level. This course makes use of some mathematical equations.

#### **GEOG 5410** Cultural Geography A study of the Earth as the home of humankind, emphasizing the spatial and functional complexes of human geography. Topics to be considered are population, settlement form, settling processes, resources, and economic, political, and societal organizations. **GEOG 5510** Urban Community Planning 3-0-**3** Principles and applications of planning for neighborhoods, towns and cities with an emphasis on the United States. Topics covered include: public services, land-use decision making, economic development, growth management and the role of non-government organizations. **GEOG 5610 Economic Geography** 3-0-3 A study of area variations in human economic activities as related to production exchange, and consumption of economic goods and services. Emphasis is placed on location of economic activities and related theories. **GEOG 5710** Environmental Soil Science 3-3-4 Also listed as GEOL 5710. Prerequisites: CHEM 1211K; GEOG 1113K or GEOL 1121K. Soil properties, distribution and classification, factors of soil formation, and the relationships among soils, geomorphology, and the environment, stressing analysis and use of soils and soil databases for proper urban, agricultural, and environmental land use. **GEOG 5810** Introduction to Biogeography 3-0-3 Also offered as BIOL 5810. Prerequisites: Three of the following courses: GEOG 1112, GEOG 1113, BIOL 2010, BIOL 2230, BIOL 2270. An overview of factors controlling the distribution of plants and animals on the Earth. Topics discussed include ecological and evolutionary processes, geophysical and climatic phenomena, and historical and anthropogenic events that have influenced current distributions. **GEOG 5910 European Geography** 3-0-3 A survey of European geography, with a special emphasis on the European Union. Topic areas covered include physical, economic, political, and cultural geography of Europe. **GEOG 5920 Geography of the Middle East** 3-0-3 A survey of the nations of the Middle East, with a special emphasis on the Arab-Israeli conflict. Topic areas covered include physical, economic, political, and cultural geography of the Middle East. **GEOG 6700** Field Methods in Environmental Geography 2-4-4 Study of field techniques and field problems in physical geography. Course includes classroom presentations, field projects, field trips, and writing technical reports. **GEOG 6800** Internship in Environmental Geography 0-6-3 to 0-12-6 A supervised, practical experience using physical geography skills in an appropriate organization. Provides the student with an opportunity to apply skills learned during pursuit of environmental geography degree to real world situations. (Graded on an S/U basis). **GEOG 6900** Special Topics in Geography 1-0-1 to 4-4-6 Topic to be assigned by instructor; the course may be repeated more than once if the topics are different. **GEOG 6990** Directed Study in Geography 1-0-1 to 4-4-6 Study in area or subject not normally found in established courses offered by the department; may also allow students to explore in more detail and/or depth an area or subject covered by the department.

Most credit notations on the far right are in the pattern 3-0-3. The first number is the number of lecture hours (or equivalent) each week; the second number is the number of laboratory hours (or equivalent) each week; the third number, in bold, is the number of semester hours credit.

#### **GEOL: GEOLOGY**

#### **GEOL 5010 Environmental Geology**

The application of basic geologic principles and techniques to problems in land-use planning, resource management, waste disposal, conservation, energy plant sitings, under-and-above-ground construction, subsidence, construction in seismic areas, slope-stability, urban development and other problems resulting from human interaction with the geological habitat.

#### GEOL 5020 Geoscience Perspectives on Global Climate Change

Also offered as GEOG 5020. Study of global climate change from the perspective of the geoscientist. Topics include whether or not global climate change is occurring, possible causes of global climate change, climate change in the geologic record, implications of climate change on the human population, and proposed methods and policies designed to limit or reverse processes believed to lead to global climate change.

#### GEOL 5050 Oceanography

The physical, chemical, geological, and biological characteristics of the ocean and the interactions between the hydrosphere, lithosphere, atmosphere, and biosphere.

#### **GEOL 5100** Principles of Mineralogy/Petrology

An introduction to mineral and rock identifications, and the study of the genesis, occurrence, and uses of common minerals and rocks. Laboratory consists of identification of common rocks and minerals.

#### **GEOL 5101 Mineralogy**

The classification, identification, and crystallography of the principal rock-forming minerals, silicate and non-silicate; and the introduction of the use of the petrographic microscope in the study of the crystallography and identification of minerals.

#### **GEOL 5102** Petrology and Petrography

Genesis, classification, and properties of igneous, metamorphic, and sedimentary rocks. Laboratory includes the use of analytical methods, hand specimens, and thin-section study with the petrographic microscope, and the macroscopic and microscopic properties of important rock types.

#### **GEOL 5120** Geosciences Field Trip

Also listed as GEOG 5120. Prerequisite: GEOG 1113K or GEOL 1121K. Student fee required. Offered only during Summer I sessions. Geology and geography of selected regions studied by readings on the region of interest during the first week, followed by a two-week field trip to points of interest. The interactions among geology, surficial processes, and organisms and how these interactions impact humans will be emphasized. Field trip destination is different each summer.

#### GEOL 5200 History of Life

Also listed as GEOG 5200. Principles of paleontology with emphasis on the history of life including vertebrates. Includes an account of the outstanding forms of life from the beginning of earthtime to the present, and those paleontologically significant groups that are uncommon, different, or extinct today.

#### **GEOL 5210** An Introduction to Hydrology

Also listed as GEOG 5210. An introduction to surface and subsurface hydrology, examining components of the hydrologic cycle. Topics include local and global water balance, precipitation, interception and infiltration, runoff, stream flow, water storage, and groundwater. This course makes use of some mathematical equations.

local areas of interest.
GEOL 5230 Vertebrate Paleontology 2-2-3
Geologic history and evolution of animals with backbones, with coverage of extinct groups
such as the Dinosauria.
GEOL 5250 Micropaleontology 2-2-3
The classification, stratigraphic relationships, and methods of study of microfossils with
emphasis on the stratigraphically important groups.
GEOL 5300 An Introduction to Process Geomorphology 3-3-4
Also listed as GEOG 5300. An introduction to process geomorphology examining land-
forms and their formative processes. Topics include weathering and slope, fluvial, coastal,
aeolian, glacial and periglacial processes, and the application of soils to geomorphology. This
course makes use of some mathematical equations. Field trip required.
GEOL 5410 Structural Geology 2-2-3
Structural features of the rocks, such as folds, faults, joints, cleavage, and primary struc-
tures, including their origin, classification, analyses and economic relationships. A study of
tectonic plate motion is included. Laboratory work includes depth and thickness problems,
structure sections, and structure contour maps.
GEOL 5450 Field Methods in Geology 2-4-4
An introduction to the basic tools and techniques used in preparation of topographic and geologic maps, and profiles and cross-sections. Includes uses of plane table, alidade, brunton
compass, and aerial photographs. 3-2-4
The application of chemical principles to study of geological and environmental processes.
Course emphasis is on understanding processes that influence the chemistry of water,
sediment, and soil. Specific topics include aqueous solutions, thermodynamics, mineral-
water equilibria, oxidation-reduction reactions, and radiogenic and stable isotopes. Labora-
tory component of the course is field-based.
GEOL 5710 Environmental Soil Science 3-3-4
Also listed as GEOG 5710. Prerequisites: CHEM 1211K; GEOG 1113K or GEOL
<b>1121K.</b> Soil properties, distribution and classification, factors of soil formation, and the rela-
tionships among soils, geomorphology, and the environment, stressing analysis and use of soils
and soil databases for proper urban, agricultural, and environmental land use.
GEOL 6110 Principles of Stratigraphy 3-0-3
The interrelationships of stratigraphy, sedimentation, and paleogeography; methods in stratig-
raphy and correlation.

#### **GEOL 6900** Special Topics in Geology

**GEOL 5220** Invertebrate Paleontology

1-0-1 to 4-4-6 Topics to be assigned by instructor; may be taken more than once if topics are different; up to a total of 6 credit hours.

#### **GEOL 6950** Directed Studies in Geology

1-0-1 to 4-4-6 Study of subjects not normally found in established courses offered by this department; may also allow students to explore in more detail and/or depth subjects covered by this department, up to a maximum of 6 credit hours.

# Identification, classification, and natural history of major groups of invertebrates preserved

2-2-3

# HIST: HISTORY

HIST 5030/5040/5050/5060/5070/5080/5090 Special Topics in History	3-0-3 each
Selected themes of historical and contemporary interest.	
HIST 5120 History of Cuisine and Culture	3-0- <b>3</b>
Overview of food and human society from early human civilization to the	ne modern era. The
course will emphasize changes in food production and consumption as w	ell as the develop-
ment of ethnic and cultural differences in cuisine.	
HIST 5201 The Ancient Near East	3-0- <b>3</b>
The history of Ancient Egypt and Mesopotamia, with emphasis on p	olitical structures,
social institutions, and cultural developments.	
HIST 5202 Hellenistic Greece and Rome	3-0- <b>3</b>
A study of Mediterranean civilization from the era of Alexander the Great	
the Roman Empire. Greco-Roman contributions to western cultural trac	ditions will be em-
phasized.	
HIST 5205 Europe in the Age of Louis XIV, 1648-1750	3-0- <b>3</b>
A study of major trends in European history from the Peace of Westphali	
ment. Cultural, social, and political achievements of European countries	
HIST 5206 Revolutionary Europe, 1750-1815	3-0- <b>3</b>
A study of major developments in Europe from the Enlightenment thr	ough the defeat of
Napoleon. The impact of the French Revolution will be emphasized.	
HIST 5207 Europe, 1815-1914	3-0- <b>3</b>
A survey of the leading developments of the period in Europe, including s	social and national-
istic trends. Emphasis is placed on factors leading to World War I.	
HIST 5208 Europe, 1914-1945	3-0-3
A survey of the lost generation living in a society broken and disillusion	•
HIST 5209 Europe Since 1945	3-0-3
A study of European domestic and international affairs since 1945 with	emphasis upon the
major states.	202
HIST 5301 Britain to 1603	3-0- <b>3</b>
History of the British Isles from prehistory to the advent of the Stuarts,	, with emphasis on
political, social, economic, and cultural developments. HIST 5302 Britain Since 1603	3-0- <b>3</b>
History of the British Isles from 1603 to the present, with emphasis on	
social, and economic developments.	pontical, imperial,
HIST 5303 English Constitutional History	3-0-3
A study of the development of English judicial and governmental ins	
Anglo-Saxon period to the present.	induciono nom me
HIST 5401 Slavic Europe to 1815	3-0-3
History of Slavic Europe from the early Middle Ages to the end of the Nat	
course will examine the history of Russian and other Slavic peoples, wi	
political, religious, social, and economic developments.	· · · · ·
HIST 5402 Slavic Europe Since 1815	3-0- <b>3</b>
History of Slavic Europe from 1815 to the present. The course will example	mine the history of
Russian and other Slavic peoples in the modern period.	2
HIST 5500 German History, 1700-1945	3-0- <b>3</b>
An in-depth study of German history from the rise of Brandenburg-Pr	ussia to the fall of
Nazi Germany. Topic areas include social, political, intellectual, cultura	al, diplomatic, and
gender history.	

#### HIST 5502 Topics in German History An in-depth study into the history and historiographical and philosophical debates of a

particular issue or period in German history. May be repeated for credit. 3-0-3

# HIST 5601 World Military History to 1618

Overview of major developments in military history to 1618. The course examines changes in military strategy, technology, and organization, with a focus on comparing systems in different regions and time periods.

#### HIST 5602 World Military History Since 1618

Overview of major developments in military history since 1618 and the outbreak of the Thirty Years War. The course examines changes in military strategy, technology, and organization, with a focus on comparing systems in different regions and time periods.

#### HIST 6100 United States Constitutional History

Development of American constitutionalism from its origins in England and colonies to the present time.

#### HIST 6101 American Legal History

History of American law from colonial times to the present. The course will examine developments in American legal history, especially the relationship between social and legal changes in such areas as criminal law, the law of slavery, and private law, particularly at the state level. The course also examines the development of such legal institutions as the bench and bar and legal education.

#### HIST 6105 European Ethnicity in American History

A study of European immigration to the United States during the 19th and 20th centuries. The course will examine the reason why Europeans came to American, the problems they faced in the assimilation process, and the contributions they made to the growth of the United States.

#### HIST 6198 Colonial North America to 1763

A study of major themes in colonial history in North America to 1763. The course will examine such themes as the origins of European colonization, the development of slavery, gender and race relations, religion and society, the imperial struggle for North America, and intercultural relations among Europeans, Africans, and Native Americans.

#### HIST 6199 Revolutionary America, 1763-1789

A study of the American Revolutionary era from the end of the Seven Years War to the ratification of the Constitution. The course examines political, economic, cultural, social, and military history of the period, with special emphasis on race and gender relations, the origins of American identity, the War for Independence, and the drafting and ratification of the Constitution.

#### HIST 6202 United States, 1789-1850

A study of United States history from the Washington administration through the Compromise of 1850, focusing on political, cultural, social, and economic developments.

#### HIST 6203 United States, 1850-1877

A study of United States history from the Compromise of 1850 to the end of Reconstruction. Focuses on the sectional crisis of the 1850s, the Civil War, and the Reconstruction process after the war.

#### HIST 6204 United States, 1877-1921

A study of United States history from the end of Reconstruction to the end of the Wilson administration. Emphasizes diplomatic, ethnic, cultural, political, and social developments. HIST 6205 United States, 1921-1945 3-0-3

#### A study of United States history from the end of World War I to the end of World War II. Focuses on the "Roaring '20s," the Great Depression, and U.S. involvement in World War II.

#### HIST 6206 United States Since 1945

A study of United States history since World War II with emphasis on political, cultural, social, and economic developments and the nation's foreign relations.

HIST 6207 United States Diplomacy to 1921 3-0	-3
A study of United States foreign relations from the Revolutionary period through 1921.	
HIST 6208 United States Diplomacy since 1921 3-0	-3
A study of United States foreign relations since 1921.	
HIST 6211 Georgia History through 1865 3-0	-3
A study of Georgia's history from its occupation by the earliest Indians through the Civ	vil
War, with attention to the state's development in its regional, national, and internation	al
context. Satisfies the Georgia History legislative requirement.	
HIST 6212 Georgia History since 1865 3-0	
A study of Georgia's history from the Civil War to the present, with attention to the state	
development in its regional, national, and international context. Satisfies the Georgia Histor	ry
legislative requirement.	
HIST 6220 Local History 3-0	
A study of the methodology of local history research and writing. The course examine	
aspects of South Georgia history as a means of providing the student with an opportuni	ty
to apply the methodology.	
HIST 6221 The Old South 3-0	
A detailed study of the social, economic, cultural, and intellectual life of the colonial ar	nd
antebellum South, with consideration of the influence of slavery.	
HIST 6222 The New South 3-0	
A history of the South since the Civil War, with special attention to political, social, ec	
nomic, and cultural developments, as well as the problems of southern blacks aft	er
emancipation.	•
HIST 6225 History of the American West 3-0	
History of the American West from Spanish colonial times to the present. The course we consider economic, social, political, and cultural developments of the region.	ш
	2
HIST 6226 Southeastern Colonial Experience 3-0 A study of the American Southeast in colonial times. The course will examine Englis	
Spanish, and French colonial activity as well as the distinctive history of African American	
and Native Americans in the region as they relate to the colonizing powers.	115
HIST 6231 African American History to 1865 3-0	2
The history of African-Americans from their origin in Africa to the end of slavery in the U.S.	
with emphasis on their economic life and social thought.	J.,
HIST 6232 African American History Since 1865 3-0	_3
The history of the African-American struggle for equality after emancipation, with speci	
focus on the problems of black leadership from Frederick Douglass to the present.	aı
HIST 6240 American Social History 3-0	-3
Analysis of the major trends in religion, culture, social structures, and social groups in the	
United States from the Colonial Era until the present. Particular attention is paid to the	
experiences of the various ethnic groups making up the American people.	
HIST 6241 Native American History to 1850 3-0	-3
Overview of Native American history in North America from the earliest human occupation	
of the continent to 1850. The course examines the economic, cultural, diplomatic, militar	
and social history of Native Americans, including the development and implementation	
Indian policies by non-natives.	
HIST 6242 Native American History Since 1850 3-0	-3
Overview of Native American history in North America since 1850. The course examines the	he
economic, cultural, diplomatic, military, and social history of Native Americans, includir	
the development and implementation of United States Indian policy

#### HIST 6304 The Caribbean

Political, economic, social, and cultural developments of the major Caribbean countries, 1492 to the present.

#### HIST 6401 East Asia

An analysis of the principal historical and cultural developments in China, Japan, and Korea, with special emphasis upon the interactions of those nations among themselves, their responses to western culture, and their roles in regional and world affairs.

#### HIST 6402 Asia in the Modern World

A general overview of the role of Asia in the contemporary world, with special reference to such phenomena as geography, population trends, cultural diversity, and regional and world interactions of the Asian nations.

#### HIST 6403 The Indian Subcontinent

An analysis of the 5000-year-old culture of the Indian subcontinent and Sri Lanka, with major emphasis upon the indigenous religions of the region and the impact of western culture and Christianity. Other topics considered are population, caste, the family, village life, government organization, the impact of British rule, and the independence movements that led to the establishment of the independence of India, Sri Lanka, and Bangladesh.

#### HIST 6404 History of the Vietnam War

An exploration of the many interrelated aspects of the conflict in Vietnam. Topics include French colonization, Ho Chi Minh and Vietnamese nationalism, the 1946-1954 war between the French and the Vietminh, the Cold War policies of the United States, escalating United States intervention in Vietnam, the United States's war in Vietnam (1965-1973), the fall of Saigon, domestic opposition to the war within the U.S.A., and postwar legacies of the conflict.

#### HIST 6501 History of the Middle East to 1798

Overview of the political, religious, and cultural history of the Middle East from the beginning of the Islamic era to Napoleon's invasion of Egypt.

#### HIST 6502 History of the Middle East Since 1798

Overview of the history of the Middle East in the modern period. The course examines the development of modern states, the effects of imperialism, the impace of World War I and II, and the results of the Arab-Israeli conflict.

#### HIST 6511 Precolonial Africa

An analysis of the 8000-year-old cultures of the Nile Valley, including Egypt, Nubia, and Kush; West Africa and its contacts with the Middle East and Europe; the East African citystates and their contacts with India.

#### HIST 6512 Modern Africa

An examination of the European colonization of Africa and the African response. The course also examines the emergence of African nationalism and the problems of creating new states. HIST 6810 Internship in History 3-0-3 to 9-0-9

Graded "Satisfactory" or "Unsatisfactory. Supervised practical experience related to the discipline of history in an appropriate agency, combined with a program of academic work. The number of credit hours granted in dependent on the nature of the program, the hours worked, and the academic program approved in advance. A maximum of 9 hours will be awarded for HIST 6810. HIST 7000 Seminar in Historiography 3-0-3

ist 7000 Seminar in Historiography	0	00
A seminar focusing on the history of historical writing from the ancient world to	the pres	ent.
Topics covered include major themes, schools of thought, methods of resear	ch, and	the
writings of influential historians.		
	<b>a a a</b>	

HIST /101//102//103 Seminars in United States History	3-0- <b>3 eacn</b>

Seminars on selected topics in Latin American history.	
HIST 7501/7502 Seminars in Asian History	3-0-3 each
Seminars on selected topics in Asian history.	
HIST 7600 Seminar in African History	3-0- <b>3</b>
Seminar on selected topics in African history	
HIST 7700 Seminar in Middle Eastern History	3-0- <b>3</b>
Seminar on selected topics in Middle Eastern history.	
HIST 7800 Seminar in Women's History	3-0- <b>3</b>
Seminar on selected topics in Women's history.	
HIST 7950 Directed Study in History	3-0- <b>3</b>
Supervised readings in areas of history not normally available in regular	graduate course
offerings, with regular conferences between instructor and student.	
HIST 7970 Libraries and Literacy in History	3 credit hours

Also offered as MLIS 7970. An exploration of the development of reading, writing, and information management from the proto-literate stages of the ancient Near East to the present computer age. Intellectual foundations of research and librarianship will be emphasized in their historical contexts.

#### HIST 7999 Thesis

#### **INTL: INTERNATIONAL PROGRAMS**

#### **INTL 5000 Foreign Exchange**

A course for foreign students enrolled at VSU under official exchange agreements of the University.

### INTL 5170 Topics in International/Intercultural Studies

Special topics in international studies include on-campus experiences, seminars, workshops such as the National Model United Nations program, and the courses offered in conjunction with the Focus lecture series each spring. May be repeated for credit.

#### INTL 5500 Study Abroad

Prerequisite: Acceptance to a VSU study abroad program. Courses for students studying abroad on VSU-approved programs. Students must have written approval from the Center for International Programs and relevant academic units to register for these courses. The number of credit hours granted is dependent on the nature of the program. Faculty supervisors in relevant departments will be responsible for assigning credit and reporting grades.

#### INTL 5501 Study Abroad

### 0-0-0 to 3-6-3

# ITED: INSTRUCTIONAL TECHNOLOGY

ITED 7000 Technologies for Teaching and Learning 3-0-3
Exploration and application of tools and techniques to support education, academic produc-
tivity, and professional development. Includes legal and ethical issues related to technology.
ITED 7040 Thinking and Learning with Computers 3-0-3
Exploration of computer applications as cognitive tools for engaging and enhancing thinking
in learners. Examines the theoretical, pedagogical, and practical reasons for using computers
as thinking tools.
ITED 7050 Distance Education 3-0-3
Introduction to distance education technologies and their utilization as instructional delivery systems.
ITED 7070 Decision-Oriented Research and Evaluation 3-0-3
Introduction to field-based research and evaluation issues and methodologies. The course
covers problem identification, sources of data, communication with clients, legal and ethical
considerations, use of data for decision making, and research and evaluation techniques,
including action research.
ITED 7080 Technology and Learning Standards 3-0-3
Integration of technology into learning environments with an emphasis on matching technol-
ogy with instructional approaches, content, student needs, and assessment to meet Georgia
Performance Standards.
ITED 7100 Foundational Theories in Instructional Technology 3-0-3
Introduction to theories of learning, instruction, communication, information, and systems
as applied to research and practice in the field of instructional technology. Includes presen-
tation skills and instructional techniques.
ITED 7200 Information Sources and Uses 3-0-3
Introduction to information sources including Internet and databases, search strategies,
information retrieval, access issues, legal and ethical issues, and evaluation of information.
ITED 7201 Information Resources and Services 3-0-3
Development and application of knowledge and skills necessary to provide information
resources and services in P-12 school media centers. The course includes strategies for
integrating information access skills into the curriculum, selecting and evaluating resources in
various formats, building media center collections, and delivering traditional and electronic
services.
ITED 7202 Bibliographic Organization 3-0-3
Introduction to basic cataloging and classification tools and processes as applied to inte-
grated electronic systems. This course includes bibliographic networks, resource sharing, and database maintenance and evaluation.
ITED 7203 Administering School Media Centers 3-0-3 Study of school library media professionalism and the organization, functions, facilities, and
management of P-12 school media centers. This course includes planning, coordinating,
supervising, budgeting, and evaluating media center personnel, services, and programs.
ITED 7299 Internship in School Media Centers 3 hours credit
Prerequisite: Approval of advisor. Supervised field experience in administering P-12
school media centers.
ITED 7300 Instructional Design 3-0-3
Introduction to the systematic design of instruction and applied research, including front-
end analysis, use of instructional learning theories to select learning strategies, assessment,
and formative and summative evaluation.

ITED 7301 Systematic Design of Instruction	3-0- <b>3</b>
Application of systematic design principles to instructional and non-instru	actional projects.
Includes project management, team building, and development issues for o systems.	lifferent delivery
ITED 7302 Needs Assessment	3-0-3
Application of research and evaluation skills to a field-based needs assess	sment; investiga
tion of non-instructional solutions with attention to performance improver includes the use of job task analysis, consideration of organizational cultu- tion of team-building skills.	ment. The course
ITED 7303 Advanced Instructional Design	3-0-3
Prerequisite: Approval of advisor. Development of a professional proj	
dents design, implement, and evaluate an instructional product or learning ITED 7399 Internship in Technology Applications	
<b>Prerequisite:</b> Approval of advisor. A university-supervised field experie	
tional technology setting.	
ITED 7400 Computer and Network Technology	3-0-3
Introduction to computer system components, connections, network equip	
ery system management. Emphasis is given to concepts and hand-on act	
configuration, specifications, standards, and installations.	
ITED 7401 Using Networked Systems for Teaching and Learning	3-0-3
Practical experiences in setting up, managing, and using network application	ations to suppor
instruction, collaboration, and computer-mediated communication.	
ITED 7403 Instructional Technology Seminar	3-0-3
In-depth investigations of specific contemporary topics and technologies	using computer
mediated communications. Electronic media are the primary vehicles for co contact.	ourse content and
ITED 7500 Management and Production of Multimedia Projects	3-0-3
Design, production, and management of multimedia projects for instruction	n. Emphasis is oi
design, development, utilization, management, and evaluation of team-bas	ses projects.
ITED 7900 Special Topics in Instructional Technology	1-0-1 to 3-0-
In depth study of specific issues in instructional technology. Course may b different topics.	be repeated under
ITED 8100 Theories, Models, and Perspectives of Instructional Technology	ogy 3-0-3
Survey and analysis of the theoretical perspectives of change, communic systems, learning, and instruction as applied in instructional technology.	
ITED 8200 Instructional Design for Training and Education	3-0-2
Applications of systematic design principles to address as identified need	
education context. This course includes problem identification, message des	ign, instructiona
strategies, and learner characteristics.	
ITED 8300 Technology Tools for Training and Education	3-0-3
Prerequisite: ITED 8200. Application of various technologies and pro-	
tional development. Includes in-depth use of computer-related technolog	gy tools to creat
effective instructional materials.	
ITED 8400 Technology Selection for Learning Environments	3-0-3
Practical experiences as evaluators and consumers of educational technol search and review of commercial, educational, and other authoritative sou includes source, vendor, and product analysis, study of effectiveness and o incorporation in technology plans and facilities.	ogy based on re

ITED 8900 Special Topics in Instructional Technology	1-0-1 to 3-0-3
Advanced study of specific contemporary issues in instructional technolog	y. Course may be
repeated under different topics.	
ITED 8960 Best Practices Literature in Instructional Technology	3-0- <b>3</b>
Broad critical analysis of professional literature in order to define, frame, a	
action-research projects. The use of print and on-line resources to identify	
retical and empirical contributions that connect action-research interests to	
sional literature is discussed. Emphasis is placed on learning the skills of rev	viewing literature
and applying the conventions of academic writing using the Publicatio	n Manual of the
American Psychological Association.	
ITED 8970 Action Research Methods and Planning	3-0- <b>3</b>
	epth study of the
foundations, assumptions, methods, techniques, and ethics of action resea	
framework for evaluating action-research studies. The focus is on design	
enhance technology-based learning and human performance in a learning o	rganization.
ITED 8999 Action Research Project	3 hours credit
Prerequisite: ITED 8970. The data collection, analysis, and reporting ph	ase of the Educa-
tion Specialist research project. May be repeated.
