- Decide if students will be able to see hints
  - If you add hints to questions you create, you must enable this feature or students will be unable to view the hints you have provided.
- Disable the right click to hinder students from printing the quiz
- Limit students' access to communication tools while the quiz is in progress

Optional Advanced Properties

If you turn on this option, users cannot access the Email tool, Instant Messages tool, or their alerts if they have a quiz attempt in progress.	:

Under the "Restrictions" tab, you can:

- Set a due date and time for your quiz
  - Students will still be able to submit a quiz past the due date unless you have created end dates

- Put timing restrictions on your quiz
  - Recommended time limit tells students the amount of time you recommend but does not require that they complete the quiz within that time frame.
  - Enforced time limit sets timing rules that students must follow.

Under the "Assessment" tab, you can:

- Set up automatic grading
  - This means that as soon as a student submits their quiz, it will be graded. This is a great option for quizzes built of multiple choice, multiple select, etc. However, do not select this option if there are questions that must be manually graded.
- Associate the quiz to a grade item
  - Associate the quiz to a grade item that already exists in the gradebook through the drop-down menu or create your own grade item in the quiz by choosing "add grade item."
- Allow automatic grade export to the gradebook
  - Once a quiz has been graded, the quiz results will automatically publish to the gradebook.
