Video Tutorial: How do I upload files to a module?

From your course homepage, select “Content” on the navbar. Then choose the module or submodule in which you will be uploading files.

Select the blue “Upload/Create” button.

Choose “Upload Files.”

There are four available options for uploading files:

- My Computer: Search and add files from your computer.
HOW DO I UPLOAD FILES TO A MODULE?

- **Course Offering Files**: Any files you have added previously in the course are available. Search and them directly from your course.

- **Shared Files**: These are files that have been previously added to a D2L shared directory. We do not encourage utilizing these files.

- **OneDrive Files**: Sign into your Office365 account to add files directly from your one drive.
