### The Place

The capital city of Costa Rica, San José, lies at an elevation of 3,809 ft above sea level, and enjoys a mild climate throughout the year, with an average temperature of 77°F.

San José is a modern city with bustling commerce, brisk expressions of art and architecture, and vibrant cultural venues. Costa Rica ranks among the top 5 countries in environmental performance worldwide and it has been declared one of the most visited international destinations for its rich biodiversity and exquisite natural beauty. Tropical rain forests, active volcanoes and beautiful white sand beaches are among the major attractions.

### The Program

The VSU in Costa Rica program was established to provide students with an opportunity to earn credits in Spanish in a summer study program. Classes are offered at ILISA Language Institute in San José, Costa Rica, in very small groups, facilitating better opportunities for conversation. The program encourages integration into Costa Rican life with daily interaction with local families and university students.

### Housing

Room and board with a host family is included in the program price as well as weekly laundry service.

Each family has been carefully selected by the resident staff of the hosting institution, ILISA, in order to accommodate students' specific needs and ensure a comfortable living situation.

The home stay provides the opportunity for students to experience aspects of the Costa Rican lifestyle that are inaccessible to the average visitor to Costa Rica, not to mention the fabulous opportunity to practice the Spanish language.

### Special activities

To acquire a better understanding of the local culture, students are invited to take cooking, dancing and painting classes. Guided visits will be provided to museums, markets and nature parks.
