Welcome to a quick guide on how to get started on your journey to becoming a Percipio Power Player.

1. Go through MyVSU to access Percipio. The link can be found under the View All section of the Portal. The link is titled “Percipio Learning Platform”.

2. If this is your first-time logging into Percipio let's get your preferences set up! If you have used Percipio before skip to step 9.

3. Select some categories for skills you are interested in. You can change these interests later, so do not worry about picking the perfect settings right away.
4. When finished, select the next button to move on.

5. Now select specific areas of our chosen skills. Once again, you can come back and change these later.
6. Save your progress and let's head to the homepage!

7. Here you can find course recommendations tailored to your interests!

8. As you work through courses, your homepage will keep a “Resume Learning” section and a “Your Playlist” for your convenience. Percipio will also suggest specific courses based on your past courses!
9. To access the Percipio Play course, use the search bar at the top of the page and search “Percipio Play” and the monthly journey will appear.

10. Click on the result “Percipio Play” and you will be taken to the course!

11. Select the first track to get started.

*Note: The screenshot will look different for each monthly Percipio Play topic.
12. You will see a list of courses that make up our journey this month. Pick a course and get started!

13. You may see videos in the course. As you watch the videos, your progress will be saved. You do not have to finish a course in one sitting.

14. Once you have gone through all of the course, take the test and earn your badge!

15. Earn all the badges in the Journey to become a Percipio Power Players!
