5. AUTHORIZATION TO TREAT (If you are 18 years of age or OVER)

- The General Consent for treatment gives permission to personnel of Valdosta State University Health Services to perform a medical evaluation including obtaining a history, doing a physical exam, performing a diagnostic workup and providing treatment, including minimally invasive procedures such as venipuncture to draw blood, x-rays, and IV catheter insertion to administer medications or IV fluids.
- The patient has the right to refuse any treatment.
- A record of General Consent for Treatment will be stored in the patient's medical record.
- Duration of General Consent for Treatment has continuing force and effect until the patient revokes the consent.

I hereby authorize the physicians, physician assistants, and nurse practitioners of Valdosta State University Health Services and their agents or consultants, including those at area hospitals and/or Georgia Department of Public Health, to perform diagnostic and treatment procedures which in their judgment may be necessary while I am at Valdosta State University. I understand I am responsible for charges incurred.

DATE OF BIRTH	AGE	PHONE

TUBERCULOSIS (TB) SCREENING QUESTIONNAIRE (REQUIRED)

Complete this form and return to VSU Student Health Services prior to your orientation date. All forms must be completed prior to arriving on campus.

1. Have you ever had close contact with persons known or suspected to have active TB disease? Yes No
2. Were you born in one of the countries listed below that have a high incidence of active TB disease? Yes No
(If YES, please CIRCLE the country, below)
3. Have you had frequent or prolonged visits to one or more countries listed below with a high prevalence of TB disease? (If YES, CHECK the countries, below) Yes No
4. Have you been a resident and/or employee of high-risk congregate settings (e.g., correctional facilities, long-term care facilities, and homeless shelters)? Yes No
5. Have you been a volunteer or health-care worker who served clients who are at increased risk for active TB disease? Yes No
6. Have you ever been a member of any of the following groups that may have an increased incidence of latent *M. tuberculosis* infection or active TB disease – medically underserved, low-income, or abusing drugs or alcohol? Yes No

If the answer is YES to any of the above screening questions, you must complete the TB Risk Assessment.

If you answered yes to any of the above questions, Valdosta State University requires that students complete a tuberculosis risk assessment by a physician or healthcare facility. This TB Risk Assessment must be completed no later than 30 days following the first day of the initial semester at Valdosta State University. The TB Risk Assessment may be completed at Student Health Services at Valdosta State University following the first day of classes during the initial enrolled semester.

If the answer is NO to all of the above questions, you may sign and no further assessment is required.

You may also mail this signed form to the VSU Student Health Services, 200 Georgia Ave., Valdosta, GA 31698 or fax to 229.249.2791.

TUBERCULOSIS (TB) RISK ASSESSMENT

(Required if "YES" was answered to any question on the TB Screening Questionnaire)

A. PATIENT SECTION

Recent close contact with someone with infectious TB disease	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Foreign-born from (or travel* to/in) a high-prevalence area (e.g., Africa, Asia, Eastern Europe, or Central or South America) *The significance of the travel exposure should be discussed with a health care provider and evaluated.	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Fibrotic changes on a prior chest x-ray suggesting inactive or past TB disease	<input type="checkbox"/> Yes	<input type="checkbox"/> No
HIV/AIDS	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Organ transplant recipient	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Immunosuppressed (equivalent of > 15 mg/day of prednisone for >1 month or TNF-a antagonist)	<input type="checkbox"/> Yes	<input type="checkbox"/> No
History of illicit drug use	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Resident, employee, or volunteer in a high-risk congregate setting (e.g. correctional facilities, nursing homes, homeless shelters, hospitals, and other health care facilities).	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Medical condition associated with increased risk of progressing to TB disease if infected [e.g., diabetes mellitus, silicosis, head, neck, or lung cancer, hematologic or reticuloendothelial disease such as Hodgkin's disease or leukemia, end stage renal disease, intestinal bypass or gastrectomy, chronic malabsorption syndrome, low body weight (i.e., 10% or more below ideal for the given population)]	<input type="checkbox"/> Yes	<input type="checkbox"/> No

B. HEALTHCARE PROVIDER SECTION: Proceed with testing as per below if "yes" to any question in section A.

(Please Note: All testing must be within 6 months prior to arriving on campus – Discuss the significance of exposure and evaluate the patient)

1. Does the student have signs or symptoms of active tuberculosis disease?

- Yes Proceed with additional evaluation to exclude active tuberculosis disease including tuberculin skin testing (TST), chest x-ray, and sputum evaluation as indicated.
- No Proceed to #2 or #3. Completion of either #2 or #3 is required for **all** students with any "yes" answers in section A.

2. Tuberculin Skin Test (TST) TST result must be recorded as actual millimeters (mm) of induration, transverse diameter; if no induration, write "0". The TST interpretation should be based on mm of induration as well as risk factors.

See guidelines listed on the Instructions for Completing the Required Immunization Forms. ****If positive, proceed to step 4.**

Date Given: ____/____/____ Date Read: ____/____/____ Result: _____ mm induration **Interpretation: Positive____ Negative____

3. Interferon Gamma Release Assay (IGRA):

****If positive, proceed to step 4.** Check the specific method: QFT-G QFT-GIT Other_____

Date Obtained: ____/____/____ Result: Negative Positive Indeterminate

4. Chest X-Ray: Required if TST or IGRA is positive, or symptoms of active disease present. Attach a copy of the chest x-ray report to this document.

****If positive, proceed to step 5, if negative, proceed to step 6.**

Date of Chest X-ray: ____/____/____ Result: Normal Abnormal

5. Sputum Evaluation: Required if TST or IGRA is positive and if chest X-ray is positive, or symptoms of active disease present.

Attach a copy of the sputum report to this document. After completion go to step 6.

Date Performed: ____/____/____ Result: Normal Abnormal

6. Diagnosis (check at least one)

- Active TB on Therapy Latent TB Infection on therapy
- **Required for all patients.** Active TB Completed Therapy Latent TB Infection declined or incomplete therapy
- All tests Negative, (no disease)
- Other: _____ Latent TB Infection completed therapy
