

Valdosta State University – Bursary Calendar for Fall 2019

Fee payment deadlines are very important! Student account balances must be paid in full or covered by sufficient authorized financial aid no later than the fee payment deadline to avoid class cancellation. To determine if the anticipated financial aid is in fact authorized, please log into the [VSU Online Student Account Center](#) and view the account balance including estimated financial aid. If the anticipated financial aid is not showing there, contact the [Financial Aid Office](#) for assistance.

Invoices are not mailed, but provided electronically as 'e-bills' in the Online Student Account Center. Invoices reflect information *as of the date prepared*, so to view 'real-time' account balances after the statement date and access the most current account balance, select View Activity'. Select the appropriate term, if necessary.

Authorized User access may be granted by the student, allowing parents or other parties their own log-in access to the Online Student Account Center, and availability to see the student account charges and authorized financial aid, and to make online payment for the student account.

Questions on how to pay or the type of payments accepted? View the [How To Pay Fees](#) web page for more information.
