ALUMNI PERCEPTIONS OF THEIR EXPERIENCES AT VALDOSTA STATE UNIVERSITY

GRADUATES OF FY2000 AND FY2004

Strategic Research & Analysis
Valdosta State University
June 2006
This document has been revised to provide a visual summary of the perceptions of VSU alumni one year and five years after graduation. Responses were received from one hundred eleven one-year out alumni who graduated during the 2004 fiscal year and ninety-four five-year out alumni who graduated during the 2000 fiscal year.

This is the second year of web-based survey administration. Three hundred thirty-two valid e-mail addresses were provided by the VSU Alumni Office for 2004 alumni and two hundred seventy-six for the 2000 alumni. The paper survey used in previous years asked alumni to repond to ninety questions. The web survey, revised with the assistance of the VSU Alumni Association, eliminated over fifty questions, leaving a total of forty-four.

E-mail invitations to participate in the survey were sent to eligible alumni in October 2005. Two follow-up invitations were sent at later intervals, and responses were collected through the end of December 2005. Return rates increased this year, with thirty-three percent of one-year out alumni and thirty-four percent of five-year out alumni responding. It is anticipated that these results will be used by colleges and departments as one indicator of the effectiveness of the University's programs and services.

Angela Henderson, Institutional Research Analyst, designed the survey, coordinated the collection of data, and analyzed the results. The report was prepared by Linda Gooden, Research Associate, with the assistance of Dawn Wood and Rebecca Reynolds, Graduate Assistants.

Special appreciation is extended to Karen Johnson in the VSU Alumni Office who furnished the email addresses for this study.
