

VSU IT  
would like to say

*Congrats,  
Graduates*

Job well done! We are proud  
of you!

Spring 2022

# Charles Stone Moye

Computer Science  
Minor: Aerospace Studies  
Networking

Charles has worked for IT for three years. After graduation he plans to become a pilot in the US Air Force.

# C. Thomas Evans

Applied Mathematics  
TRU – North Campus

Thomas has worked for IT for four months. After graduation he plans to move to the northern Midwest in hopes of landing a position with lab research or computational linguistics. Until that happens, he will work as a data analyst. He hopes to spend time with my family.

# Dante Didymus

Organization Leadership  
TRU

Dante has worked for IT for one year. While we do not know his future plans, we are sure he will be blazing a bright path.

# Evan Creamer

Masters in  
Communication Arts  
Solutions Center

Evan has worked for IT for four years. He is uncertain of his plans after graduation, but excited for the possibilities and the opportunities ahead.

# Grant Solomon

Computer Science  
Solutions Center

Grant has worked for IT for two years. After graduation he plans to complete an online masters program through Georgia Tech while continuing to gain experience with VSU IT.

# Michael Anthony Williams

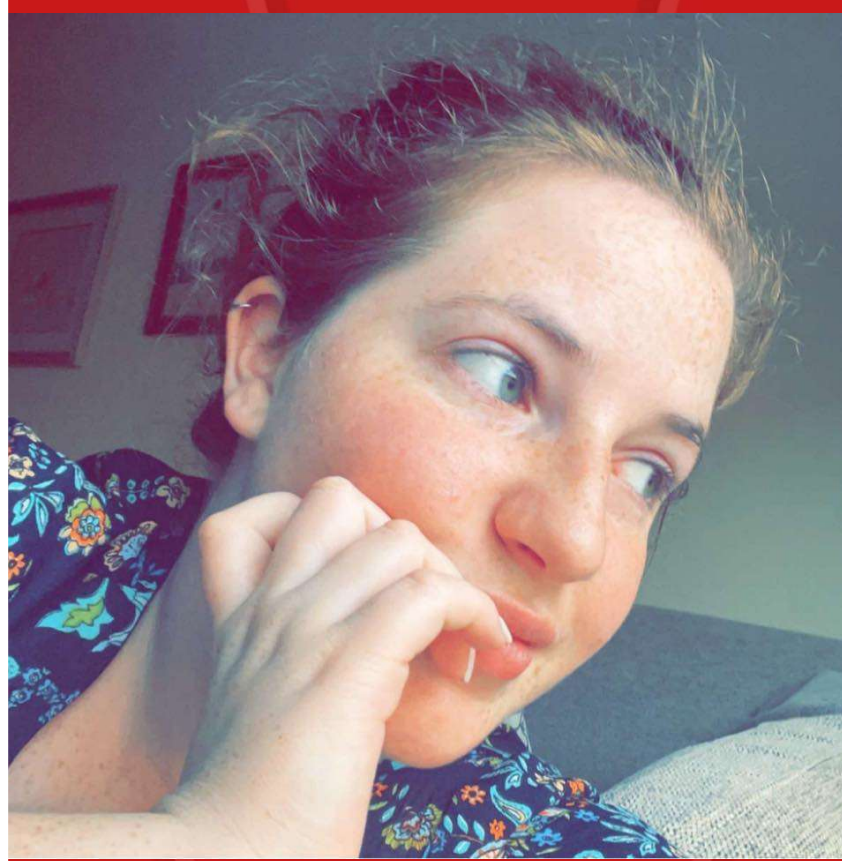

Mass Media  
TRU

Michael has worked for IT for four months. After graduation he plans to move out of Valdosta and become a successful content creator.

# Katherine Nichols

Interdisciplinary Studies  
Communication and Support

Katherine has worked for IT  
for three years. After  
graduation she plans to move  
to York, England, and pursue a  
Masters in Public History from  
the University of York.

# Roberto Leal

Masters in  
Public Administration  
Communication and Support

Roberto has worked for IT for four years. After graduation he plans to find a career at a non-profit or government organization. He also intends to invest more time into his startups.

# Samuel Davis

Computer Science  
Solutions Center

Samuel has worked for IT for one year. After graduation he plans to pursue a career as a software engineer.

*Good luck in  
your next  
chapter,  
graduates!*
