Logging In

⭐ Information is posted on every instructor workstation

Example:

Logging into the computer:

Users can login with their own **Active Directory credentials** to access their own **My Documents folder**:

> Username: {same as your Active Directory Account}
> Password: {same as your Active Directory Account}

Users can also login using a group use account to access locally installed software:

> Username: ~~ac_instructor~~
> Password: ~~log_instructor~~

If the user before you *forgot to log out and the computer is locked*, please follow the following steps to unlock the computer:

1. Click the **Switch User** button located below the password entry field.
2. You will be brought back to the original window with instructions on how to log in.
   a. Click the **Ok** button.
3. Enter **username and password** as instructed above, press **Enter** on the keyboard **or** click **blue arrow**.
