

## **“New to VSU and Don’t Know What to Do”?**

### **New Students**

All new students must complete an orientation before registering for courses.

### **Traditional Students**

For traditional students (Brand new to college, straight out of high school in the last five years), you will attend a face-to-face orientation. When you register for orientation, you will receive an email prompt to complete two surveys, MyMajors and a Pre-Enrollment Survey. Please complete these before orientation. The sooner you complete it, the sooner an advisor will start reviewing your record and planning for your attendance.

### **Transfer Students**

Transfer students for our on-campus programs complete an online orientation. Once the online orientation is complete, you will transition to your appropriate advising location.
