The Pasteur - Paris University International Doctoral Program
An international PhD program in Life Sciences and Biomedicine

Call for 2016

An exceptional PhD program* in the exciting, dynamic and interactive research environment of the Institut Pasteur in collaboration with Parisian universities. The PhD program is for students holding a Master’s degree (or equivalent) in science, medicine or related fields from a non-French university.

- Improving public health and welfare through scientific discovery
- Quest for knowledge beyond the frontiers of biological sciences
- Satisfying scientific curiosity in a dynamic research environment
- State-of-the-art technology platforms
- A three years stipend covering living expenses and social benefits
- Assistance with housing and visas
- Tailored courses and training to high proficiency
- Close scientific supervision
- Interactive environment for collaborations
- Dedicated student club for science and social activities

*This project has received funding from the European Union’s Horizon 2020 research and innovation programme under the Marie Skłodowska-Curie grant agreement No 665807.

For more information and submission of applications: www.pasteur.fr/en/doctoralpositions

- First step: find a host laboratory. Available labs and their projects will be posted on the web site and may be contacted from September 14 to November 6.
- Second step: submit complete application in collaboration with host lab by November 20.
- Third step: short-listed candidates will be invited for an interview at the Institut Pasteur in February, 2016, with decisions shortly thereafter.
