Dear Interior Design Major:

This academic map is a term-by-term sample course schedule. The milestones listed below each term are designed to keep you on course to graduate in four years. Sample schedules are provided as general guideline to help you build a full schedule each term. Courses must be selected with your academic advisor to satisfy all core and major curriculum, as well as meeting accreditation standards such as NASAD (National Association of Schools of Art and Design).

The major is designed to offer learning opportunities structured to prepare the student for a variety of careers in the interior design profession or for graduate school. Students interested in this major are advised that the degree requires six major studios, which must be taken in sequence, one per semester. The program of study includes a required internship to be taken in the summer between the junior and senior year. **Students should plan to be advised in the Department of Art & Design as soon as they identify an interest in this major.** Students must apply to be admitted to the major based on a spring semester portfolio review of Area F courses and as Department of Art & Design resources permit. All students, including transfer students, must have an overall grade point average of 2.5 on a 4.0 scale after completion of 30 semester hours of college credit. This is a 120-hour degree program.

The field of interior design is about connecting people to the spaces where they live, work, learn and play. Interior designers address the visual, technical and aesthetic aspects of inhabited spaces, integrating art and design concepts, utilizing space analysis and planning, and employing their knowledge of materials, furnishings and construction to produce finished interior environments that serve the specific needs of their clients. Students in the Interior Design Program at Valdosta State University learn in a stimulating and collaborative environment and are prepared for careers as interior designers, consultants and planners.

Students who complete the major in Interior Design will graduate with a Bachelor of Fine Arts - Interior Design degree. The Interior Design Program within Valdosta State University is accredited by the National Association of Schools of Art and Design (NASAD). Interior design addresses the visual, technical, and aesthetic aspects of inhabited spaces. Interior design services involve the integration of art and design concepts; space analysis and planning; and knowledge of materials, furnishings, and construction to produce finished interior environments that interpret and serve the specific needs of a client.
