PROJECT BRIEF

Our second assignment exploring the types of "output" or equipment used in creating art with technology will be for the laser cutter that is currently housed in the woodshop. We will use Adobe Illustrator to create simple line art drawings that will be sent to the laser cutter for cutting out areas of your design.

NUMBER OF ATTEMPTS

You will only need to submit one design for this project, however, you will likely be working on a few ideas before you ultimately decide on which line art will translate the strongest. I have included a few pictures of on the next page to help you understand what your goal will be.

SIZE

5" x 7" OR 6" x 6"

REQUIRED ELEMENT USED

Shape to create Pattern

POSSIBLE PRINCIPLES TO CONSIDER (PICK TWO)

Repetition	Unity
Rhythm	Balance
Emphasis	Harmony
Scale	etc...

FILE MANAGEMENT FORMAT

Saved as anIllustrator (.ai) and (.pdf) - with .10 thickness of stroke VERY IMPORTANT!!!
You will need to always save your files with your full name listed as well as the project in the name.

Example: **evelyndaviswalkerlasercut.ai**

evelyndaviswalkerlasercut.pdf

DUE DATES

REVIEW THE CURRENT CLASS CALENDAR FOR DUE DATES

INTENT STATEMENT INSTRUCTIONS
Place the short statement as a word document or a PDF in the 'Files' tab section of your Microsoft TEAMS where you place your other art files.

POINTS

ARTWORK - 50 POINTS
STATEMENT - 10 POINTS
