Valdosta State University Graduate Social Work Organization

The Graduate Social Work Organization (GSWO) was formed in 1999 as the local organization for students in the social work program at Valdosta State University. Its purpose is to promote camaraderie and exchange between face to face and Web students at all levels in the program to increase awareness between the cohorts. Each semester social functions are held. Furthermore each semester a community project is completed. All students automatically are members of the GSWO. There is no fee.
