

**Dewar College of Education and Human Services Student Opinion of Instruction Mean Evaluation Scores
Compared to VSU College of Nursing and Health Sciences
2012-2014**

The main goal of Student Opinion of Instruction (SOI) evaluations is to help faculty improve courses and instruction; moreover, student evaluations are used in the annual evaluation of faculty. Therefore, faculty administer student evaluations for each course they teach during the fall, spring, and summer semesters. Fall semester student evaluations are returned by midterm of the following spring semester and spring semester evaluations are returned by midterm of the following summer session II. Summer session evaluations will be returned by midterm of the following fall semester. Each quantitative question on the SOI evaluation form has a scale range of 1 (strongly disagree) to 5 (strongly agree).
