

Giving Undergraduates Ideas to Directly Encourage Success

A PEER MENTOR PROGRAM FOR MATH & SCIENCE MAJORS

GET TIPS FOR SUCCESS

Peer mentors will help you through the hardships that come with being a college student. Let our peer mentors give you study tips, ways to de-stress, encouragement, and so much more so you can reach your full potential at VSU.

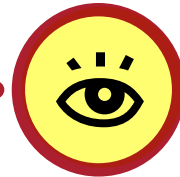

FOR MATH & SCIENCE MAJORS

Majoring in math and science is hard, and building connections with other students and making friends will help you succeed.

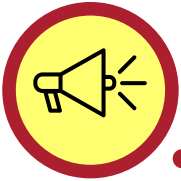

MAKE CONNECTIONS WITH PEERS

GUIDES will assign you a fellow college student to help you successfully navigate VSU; they are your peers and have been where you are, which is why they are best equipped to help you.

LEARN ABOUT RESOURCES & OPPORTUNITIES

Peer mentors will help you take advantage of the resources that VSU has to offer based on your needs and/or goals.

Science &
Mathematics
presents

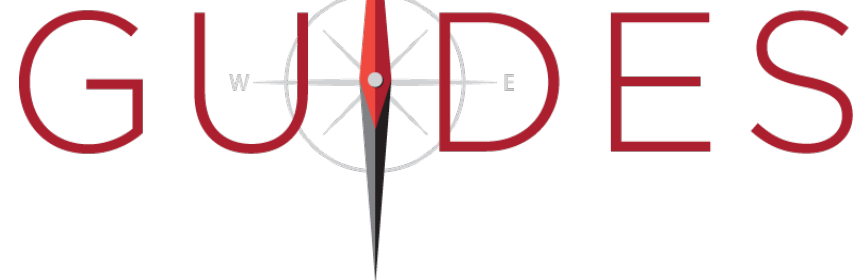

GUIDES

HAVE FUN

GUIDES plans activities such as Games on the Front Lawn and hosts discussion panels including Study Tips, How to Survive Finals, and How to Talk to your Professors that are designed to not only be useful, but also give you the opportunity to meet other students outside of class.
