Earthquake or Structural Collapse

1. If You are Inside
   a. Watch for falling objects.
   b. Crawl under a table, counter, etc.
   c. Get into a protective position by tucking your head to your knees and cover your head with your arms.
   d. Consider persons with disabilities who may need assistance in getting to cover and later evacuating.
   e. Stay away from windows, glass partitions, and mirrors.
   f. Stay away from overhead fixtures.
   g. Stay away from filing cabinets.
   h. Stay away from bookcases.
   i. Stay away from electrical appliances.
   j. Stay away from hanging objects.
   k. Evacuate the building only after debris has stopped falling.

2. If You are Outside
   a. Move to an open area away from building structures.
   b. Watch for fallen power lines.
   c. Watch for fallen streetlights.
   d. Watch for fallen trees.
   e. Watch for flying glass.
Earthquake or Structural Collapse

3 If You are in a Vehicle
   a. Stop your vehicle in the nearest open area.
   b. Stay in your vehicle until the tremors have subsided.

4 After the Incident
   a. Remain calm.
   b. Be prepared for after-shocks.
   c. If evacuation is ordered, use the nearest and safest exit. Consider persons with disabilities who may need assistance in getting to cover and later evacuating.
   d. DO NOT USE ELEVATORS!
   e. Proceed to your designated evacuation assembly area.
   f. Do not move seriously injured persons unless they are in danger.
   g. Open doors carefully.
   h. Watch for falling objects.
   i. Do not use matches/lighters or other sources of ignition.
   j. Avoid using telephones, as emergency response personnel will need these.
