

## Human Bodily Fluids Bloodborne Pathogens

If a Human Body Fluid Spill Should Occur | Blood, Vomit, Feces, Saliva, Urine

 Always notify University Police when exposed to human bodily fluids and seek professional medical treatment.

 Human bodily fluids are also known as blood borne pathogens.

 Do not clean up a human bodily fluid spill unless you are trained in bloodborne pathogen cleanup procedures.

Always treat human bodily fluids as an infectious waste.

 Always wear rubber or latex gloves when handling human bodily fluids.

## Human Bodily Fluids

Bloodborne Pathogens

 When danger of splashing exists, wear a face shield to prevent human bodily fluids from getting in your eyes, mouth, or nose.

 Avoid getting human bodily fluids in open sores or wounds.

• If human bodily fluids come in contact with your skin, wash the area immediately with soap and water and rinse.

 University Police will contact Custodial at 5875 or Auxiliary Custodial at 6189 for cleanup of human bodily fluids.
