ABOUT US

At our clinic, we provide a comprehensive range of medical services, including a CLIA certified lab and pharmacy. Our convenient location on campus allows students to receive care from a provider, complete necessary lab work, and obtain their medication without having to travel elsewhere. In addition, the Health Center can fill prescriptions from external providers and serve as a collection site for labs ordered by a student's primary care provider. We accept most insurance plans and offer services with no copay. For detailed information about insurance coverage, please visit our website.
